CIVIL SERVICE AND THE SCHOOLS.

The other day there was a gathering of republican clubs in Baltimore, and each having an eye on some public office, they adopted the following resolution:

Resolved, That we, as republicans, pledge ourselves not to support any one for office, either national, state or city, who is in favor of the present odious civil service law, or its application in the distribution of public patronage, whereby the majority of appointments are awarded to young men fresh from schools and colleges, while active, intelligent, educated and deserving men of our own party are barred out on account of age, or have failed to answer foolish questions not pertinent to the service in which they are seeking employment. We believe that the present civil service law is a relic of European governments, is injurious to party success, and not at all appropriate to a republican form of government, and therefore should be repealed.

To be sure, the resolution is foolish in the extreme. The present civil service law is well enough as far as it goes, and with all its imperfections it does not merit opposition of that kind. The civil service law is one thing, and the civil service practice as regards the igher offices, is another. A review of the report of the civil service commission of the United States, has been published, and of course, its statistics are correct. The New York Tribune has taken the pains to go over the report and the facts and figures following show to what extent the majority of appointment under the civil service law are awarded to young men fresh from schools and colleges.

The average ages of those who passed the examinations for positions in the custom service was as follows. Gaugers, clerks, storekeepers, etc., 28.4 years; day inspectors, 31.2; examiners, 30.5; gaugers, 36; inspectresses, 28.7; night inspectors, 31.0; openers and packers, 32.5; samplers, 30.5; weighers, and assistant weighers, 33.2 years. Surely the average of all these classes was a long way from the school age.

In the postal service the successful candidates were very many of them married men, and the average age of those who succeeded in the examinations for clerks was 24 years, and for carriers 28 8 years.

Here is another portion in the report well worth reading. "Between January 16, 1885, and June 30, 1888, 28,735 persons who claimed a public school education were examined for all branches of the classified service. The number of those examined during the same period who claimed a college education was only 4,327, or a little more than one-seventh the former number. Of those having a public school education 18,476 passed. If we add to these those who had been educated in business colleges, the total passed is 19,040. Of those who claimed a college education, 3,029 passed. The number of the college graduates who passed is seen therefore to have been only one-sixth of those educated in public schools and business colleges."

BRAINS IN JURYMEN.

No one can truthfully deny that intelligent public opinion is constantly tending toward dependence, more and more, upon the bench, rather than the jury box, for equitable decisions. In many civil trials juries are dispensed with by consent of both parties. As things now are, in all criminal cases, many matters of vital moment must be decided by the court alone. The question arises: If a judge is not expected to be ignorant of the issue before it has been tried in his court, if he, instead of being a man of inferior knowledge regarding passing events, is expected to have a capacious mind, richly stored with various information, why cannot jurymen be allowed something of the same liberty? Why cannot they be trusted to judge honestly and impartially even though their minds have been wide open to the light in every direction?—*Boston Advertiser*.

It is feared that the day of looking for a juryman as you would for a judge, will long delay its coming. But in all justice, why shouldn't a juryman, who has the power to vote away a man's life, or his liberty, or his property, be just as well read, just as learned, just as capable, if such can be found, as a judge who administers the law? It is vital, as everybody knows, that a judge shall be a man of brains, that he shall be fit in all things to decide between men who take their disputes into court; and it quite often happens that a juror has more power than a judge, why then should he be less capable to do his duty than a judge?

The jury system of the United States is not an honor to our civilization. It is kept in the rear of the march of progress. There is no organized effort to secure reform in this matter. Francis Wayland, whose splendid article on the jury system of the Sandwich Islands was recently printed in the Gazette, has frequently tried to remedy the evil pertaining to jurors, but he has failed. He is an able writer on criminal law, and has made suggestions in regard to juries that are of supreme importance to every litigant and every man charged with the commission of crime, but his suggestions have not been heeded. The old system, with all its errors and danger, seems so be here to stay.

There is no quarter of the Union, says the New York Tribune, where republican prospects are brighter this fall than in the northwest. Our staff correspondent after weeks of painstaking and deliberate study of the political conditions forecasts a popular triumph for the party in every one of the new states, with the hardest struggle in Montana where General Price's army furnished the pioneer settlers after the war. In Washington the victory will be an overwhelming one in the face of demagogic democratic agitation against railway corporations. The republicans have earned unbroken success all along the line, for they have not only strenuously favored the admission of the new states, but have also systematically supported federal legislation for promoting the development and progress of young and struggling communities. The democratic policy of withholding national aid and making every new territory dependent upon its own resources dates back to Jefferson's time. If the party has not been consistent in any other respect, it has been in its rigid adherence to this old-time tradition. In the political history of the country there has always been a party favoring more legislation and another party wanting more. The democracy is the party of inaction, and the northwest, which is fairly quivering with suppressed activity, is naturally in revolt against it.

Says General John B. Bowman:—"It is my opinion that irrigation will be the means of doubling the population of every western state and territory within the coming ten years. I further believe that in the east, where the rain fall is heavy, but uncertain, irrigation will ultimately be resorted to in order to insure greater regularity of crops. Four-tenths of the area of the United States, not including Alaska, requires irrigation. This territory includes part of California, Texas, Kansas, Nebraska, Oregon, all of Arizona, New Mexico, Utah, Wyoming, Montana, and portions of Dakota and Washington."

Says an Englishman: "You Americans are getting so that you have no interest for any time but the present. Years ago we used to think we were pretty wide awake when we coined the phrase, 'men of the day.' But, bless me, you have no use for men of the day; you only care to know 'men of the hour.' And I expect that you will very soon ignore everybody but men of the minute: The American people live on the sharp point of the passing moment, and they seem to enjoy it."

The visible supply of grain afloat and ashore on September 14, as reported by the New York Produce Exchange was: Wheat, 15,697,456 bushels, an increase of 1,599,424 bushels; corn, 12,801,980 bushels, an increase of 802,282 bushels; oats, 5,015,944, a decrease of 195,313 bushels.

For Traveling.

A trunk, to be serviceable, should be full of trays, and the female buyer should look well to this, for it saves more time, trouble and temper than any advice heretofore known. Light dresses should go in the bottom of the trunk; it is the safest place for them, and they will only be wanted after the other garments are on. The first tray above them should contain lingeries, the next all the small appurtenances of the toilet, gloves, shoes, stockings, handkerchiefs and laces, and the tray that shuts up into the top of the trunk can be used to store hats and parasols. Another convenient piece of luggage is a valise made of gray canvas, which is as light as a receptacle two feet long, a foot and a half deep and a foot wide, can be made. It will hold a deal of impedimenta, as any one will find by experiment, and takes the place to a woman that the convenient flat dress suit does to a gentleman.

Death in the Vinegar Cruet.

Acting under the provisions of a recent law the Secretary of the Indiana State Board of Health has collected samples of the vinegar sold in several Indiana cities, and has just completed a careful analysis. Of eight samples thoroughly tested, but one proves to be pure cider vinegar and the other seven are nothing more than a decoction of rain water and sulphuric acid. The largest vinegar manufactory in Indianapolis, which claims to sell pure apple vinegar, furnished the worst stuff that was found among the samples. The secretary says that it will destroy the stomach even of an ostrich if used liberally. The law as enacted by the last Legislature prohibits the manufacture and sale of any vinegar not the product of pure apple juice. It must not have any artificial coloring; must have an acidity equivalent to the presence of not less than four per cent by weight of acetic acid.

The Mosquito.

To expel mosquitoes, take of gum camphor a piece about one-third the size of a hen's egg, and evaporate it by placing it in a tin vessel and holding it over a lamp, taking care that it does not ignite. The smoke will soon fill the room and expel the mosquitoes, and they will not return, even though the windows should be left open all night.

Wisconsin State Fair at Milwaukee

The Chicago, Milwaukee & St. Paul Railway will run a special train from Janesville to Milwaukee on September 17, 18, 19 and 20, leaving Janesville at 7:15 a. m., arriving in Milwaukee at 10 a. m. Returning, will leave Milwaukee at 7.40 p. m. arriving at Janesville at 10:20 p. m. Round trip tickets will be sold from September 14th to 21st, good to return September 23d inclusive, at one fare for the round trip, with 50 cents added for admission to the state fair.

Records Stolen in the Billings Trial.

WATERLOO, Iowa, Sept. 17.—The attorneys for the State in the Billings trial have created a sensation by announcing that portions of the evidence taken at the coroner's jury is missing. Those portions include Billings' confession of having prepared false affidavits with which to frighten Kingsley.

Fatal Mishaps.

BARTHOLOMEW BALL, aged 68, was killed in the coal mines at Excelsior, Iowa, by being hit on the forehead by a piece of flying coal from a premature blast.

MRS. JOHN HILSON of Dubuque, Iowa, was fatally burned by her dress catching fire from the cook stove.

A GREEN BAY, WINONA & ST. PAUL train broke through the Wolf river bridge at Shrocton, Wis., wrecking the engine and three box cars. James Doyle, the engineer, was fatally injured. Fireman Bennett was slightly hurt, as were also several others.

NEAR CAMRO, Wis., Albert Barth, aged 14, accidentally killed his 7-year-old sister with a shotgun with which he was playing while his parents were at church.

IS COONEY IN CUSTODY?

A RUMOR TO THAT EFFECT CIRCULATED.

A Chicago Paper Gives Alleged Details of His Arrest at St. Paul—Dr. Cronin's Clothes.

CHICAGO, Sept. 17.—The Globe says: Patrick Cooney, "The Fox," is in Chicago. He arrived in the city last Wednesday evening. He was accompanied by a body-guard of four police officers, and is now safely locked up in a cell in a police station in this city. This fact the police still pretend to deny in the face of the most convincing proof, but denials are of no avail at this time, for, notwithstanding their precautions and attempts to keep the matter a profound secret it has leaked out and that, too, through a source which is authoritative.

Cooney was arrested ten days ago in St. Paul by a police officer in that city who had carefully scrutinized his photograph and read descriptions of the man sent out by the police. Chief Hubbard was at once notified by wire of the arrest, and Officer John Collins and two other officers were at once dispatched to St. Paul to identify the prisoner and bring him back. They were instructed to work with the utmost caution and let nothing escape them which would tend to disclose the identity of their prisoner upon pain of dismissal from the force.

As soon as Officer Collins saw the prisoner he called him by name and shook him by the hand. Cooney saw that any attempt at denial as to his identity was useless and returned the salute. After a short consultation he agreed to return to this city without the necessary requisition papers, and arrangements for the trip were speedily made.

PATRICK COONEY.

It was decided that it would be better to travel in the smoking car attached to the train, as the party would attract less attention there than in a special car. It was feared, however, that some of Cooney's friends might learn of his arrest and attempt to rescue him from the officers. The St. Paul officer who made the arrest was invited to accompany the Chicago officers, and he agreed to do so.

The party left St. Paul on the early train Wednesday morning and were driven to the depot in a closed carriage. Cooney was handcuffed between two of the officers and reached the depot just before the departure of the train. Tickets had been procured in advance, and the party entered the forward end of the smoking car. As soon as they entered the car Cooney's feet were shackled, handcuffs placed upon his wrists and a chain passed through the handcuffs and around the arm of the seats and secured with a padlock.

In this way the party came to Chicago, reaching here Wednesday night. Cooney was removed from the train at Western avenue. The officers marched one on either side of Cooney, while the remaining two marched close behind the prisoner. A close carriage was in waiting a few feet from the train, and the party entered it and was driven rapidly away.

Patrick Cooney is supposed to have been one of the principals in the Cronin murder and was a partner of Martin Burke at the time the flat at No. 117 Clark street and the Carlson cottage were rented, and it is known that he can divulge the greater part of the plan to kill Dr. Cronin and the carrying out of the same. That he can successfully put the ropes around the necks of several of the defendants there is no doubt, and it is just that thing that the State is looking for, even if it is necessary to let one of the principals in the brutal crime go free.

CRONIN'S CLOTHES.

An Alleged Plot to Make It Appear the Doctor Was Murdered in England.

CHICAGO, Sept. 17.—The latest story in the Cronin case relates to the alleged plot to make it appear that Dr. Cronin was murdered in London, on the ground that he was a British spy.

It is said that the police are in possession of evidence to show that the conspirators had made arrangements to have found in the Thames river a mutilated and disfigured corpse, arrayed in the clothes which Dr. Cronin wore on the night he disappeared, with his watch and other trinkets. In the pockets of the corpse were to be found forged letters showing that Dr. Cronin had been in correspondence with the detectives of Scotland Yard for a number of years. One of the men now on trial in the Cronin case is said to have been delegated to attend to the American end of the plot. May 7 the man met another conspirator at Sweany's hotel in New York, and it was arranged that the effects of the murdered doctor should be sent England in the sealed iron box which had been procured by Tinsmith Klahre a few days before. The box, it is claimed, was entrusted to a porter on an Inman line steamer, who, in due time, turned it over to a conspirator stationed at Liverpool. This man, it is said, was to look after the rest of the plot. He rented a cottage several miles from London; on the Thames river, and made arrangements to secure from Gray's hospital a corpse resembling in general features the appearance of Dr. Cronin. The idea was to array this corpse in Dr. Cronin's habiliments, throw it into the Thames, and allow it to be found a day or two later, thus shifting from Chicago to London the scene of the crime. The discovery of Dr. Cronin's body in the catch-basin in Lake View upset the plans of the plotters, and this man fled from the cottage on the night of May 23.

SIX DEAD IN ONE FAMILY.

Terrible Mortality Among Children Traveling from Iowa to Milwaukee.

BOONE, Iowa, Sept. 17.—A family by the name of Zomtbal, consisting of parents and ten children, left Boone early this month for Milwaukee. They went in a wagon, being ten days on the road. News was received from them to-day that diphtheria had broken out in the family on their arrival, and that six of the children died in three days, only two recovering. It is thought they became infected on the road, as no trace of the disease is found in this city.

MAY STRIKE AGAIN.

London Dock Laborers Refuse to Work with "Blacklegs."

LONDON, Sept. 17.—At the opening of court to-day the recorder, in charging the grand jury, referred to the recent strike in London. He said that, though an immense number of men had been out of work for weeks and had suffered great privations, there was not a single case on the calendar arising from the strike. The peaceful behavior of the men, he declared, was a subject for national pride.

Most of the strikers resumed work this morning. A thousand unemployed dock laborers are waiting (at the gates of the docks. They threaten violence against the men who were employed to take their places, and whom the directors of the dock companies now refuse to discharge.

The situation is so serious that the dock committee, the conciliation committee, and the leaders of the strikers were summoned to a conference at the Mansion house. A deputation of ship owners arrived at the Mansion house while the meeting was in progress. Mr. Burns, one of the leaders of the strikers, announced several cases where unreasonable preference had been given to "blacklegs." It was finally agreed by all those present at the meeting to endeavor to have the agreement kept intact by all the parties interested.

At a meeting at Poplar Mr. Burns said that the treaty with the working men had been broken by subordinate officials of the dock companies. Some of the wharfingers also had tried to get men at the old terms, but had failed. Unless the agreement with the men was kept there would be another strike. The directors of the dock companies, however, had assured him that they would prevent any unfair preference being shown, and the shipowners had advised the directors to pay the fares of the "blacklegs" and send them back to their homes.

Mr. Sydney Buxton, member of Parliament for the Poplar division of Tower Hamlets, expressed the belief that matters would settle down quietly in a few days. He understood from Mr. Tillett that the men would be advised to continue at work, while the "blacklegs" would be gradually weeded out or induced to join the dockmen's union.

HUNTINGTON WON'T HAVE IT.

The Engagement Between His Daughter and the German Prince Broken Off.

PARIS, Sept. 17.—The projected match between Prince Hatzfeldt and the adopted daughter of Mr. C. P. Huntington has been definitely broken off. After a thorough investigation of the matter the Pacific railroad magnate has concluded that he will not pay the prince's enormous debts, which, he believes, should be settled by the prince's father and mother, who are perfectly able to do so if they wished.

CIGARMAKERS CONVENE.

They Begin Business at Tammany Hall With 200 Delegates Present.

NEW YORK, Sept. 17.—The twenty-fifth annual convention of the International Cigarmakers' union opened at Tammany Hall this morning. It was attended by 200 delegates, representing every State and Territory in the union.

A radical change in the constitution will be made in accordance with a rule by which it is revised every two years, and some very important questions will come up, among which will probably be that of Chinese labor. It is expected also that some interesting information as to the investigation of the eight-hour labor system will be given by the delegates.

The advisory committee has been in communication with members in nearly every city in America, and has many hundreds of letters containing suggestions from people all over the country. The committee has framed a constitution which will be submitted to the convention.

At this morning's session no business was done except to appoint a committee on credentials, after which a recess was taken till afternoon.

ODD-FELLOWS AT COLUMBUS.

Meeting of the Sovereign Grand Lodge—Grand Sire Underwood's Address.

COLUMBUS, Ohio, Sept. 17. — The Sovereign Grand Lodge of Odd-Fellows convened in annual session Monday with 162 representatives present from every State and Territory and from Canada and Europe. The delegates were welcomed to Ohio by Gov. Foraker and to the city by Mayor Bruck and on behalf of Ohio Odd-Fellows by Grand Master McKinley and Grand Patriarch Frost. Thousands of visitors are in the city.

The lodge was called to order at noon by Grand Sire Underwood, who delivered the annual address. He said that there were 1,3-1,375 white Odd Fellows on the globe, a number fully a quarter of a million larger than the membership of any other civilized secret society. He made many recommendations regarding amendments of the constitution and the discipline of the order and advised the raising of $1,000,000 or more to build a temple for the home of the sovereign lodge.

Grand Secretary Ross made his annual report, showing the great prosperity of the order. A steady rain, pouring down all afternoon and evening, seriously interfered with the musical and military programs.

Will Accept the Cruiser Charleston.

SAN FRANCISCO, Cal., Sept. 17.—The report of the naval board of inspection, concerning the new government cruiser Charleston, shows that vessel to possess an average speed of 18½ knots an hour and a maximum of 19½. The horse power shown was 6,816 average and 7,093 maximum. Officers do not think the forfeit, which amounts to $18,400, will be accepted by the government on account of the builders failing to fill their contract at the time agreed upon. The report is favorable, and recommends that the cruiser be accepted.

CIVIL SERVICE AND THE SCHOOLS.

The other day there was a gathering of republican clubs in Baltimore, and each having an eye on some public office, they adopted the following resolution:

Resolved, That we, as republicans, pledge ourselves not to support any one for office, either national, state or city, who is in favor of the present odious civil service law, or its application in the distribution of public patronage, whereby the majority of appointments are awarded to young men fresh from schools and colleges, while active, intelligent, educated and deserving men of our own party are barred out on account of age, or have failed to answer foolish questions not pertinent to the service in which they are seeking employment. We believe that the present civil service law is a relic of European governments, is injurious to party success, and not at all appropriate to a republican form of government, and therefore should be repealed.

To be sure, the resolution is foolish in the extreme. The present civil service law is well enough as far as it goes, and with all its imperfections it does not merit opposition of that kind. The civil service law is one thing, and the civil service practice as regards the igher offices, is another. A review of the report of the civil service commission of the United States, has been published, and of course, its statistics are correct. The New York Tribune has taken the pains to go over the report and the facts and figures following show to what extent the majority of appointment under the civil service law are awarded to young men fresh from schools and colleges.

The average ages of those who passed the examinations for positions in the custom service was as follows. Gaugers, clerks, storekeepers, etc., 28.4 years; day inspectors, 31.2; examiners, 30.5; gaugers, 36; inspectresses, 28 7; night inspectors, 31.9; openers and packers, 32.5; samplers, 30.5; weighers, and assistant weighers, 33.2 years. Surely the average of all these classes was a long way from the school age.

In the postal service the successful candidates were very many of them married men, and the average age of those who succeeded in the examinations for clerks was 24 years, and for carriers 26 8 years.

Here is another portion in the report well worth reading. "Between January 16, 1885, and June 30, 1888, 28,735 persons who claimed a public school education were examined for all branches of the classified service. The number of those examined during the same period who claimed a college education was only 4,327, or a little more than one-seventh the former number. Of those having a public school education 18,476 passed. If we add to these those who had been educated in business colleges, the total passed is 19,640. Of those who claimed a college education, 3,029 passed. The number of the college graduates who passed is seen therefore to have been only one-sixth of those educated in public schools and business colleges."

BRAINS IN JURYMEN.

No one can truthfully deny that intelligent public opinion is constantly tending toward dependence, more and more, upon the bench, rather than the jury box, for equitable decisions. In many civil trials juries are dispensed with by consent of both parties. As things now are, in all criminal cases, many matters of vital moment must be decided by the court alone. The question arises: If a judge is not expected to be ignorant of the issue before it has been tried in his court, if he, instead of being a man of inferior knowledge regarding passing events, is expected to have a capacious mind, richly stored with various information, why cannot jurymen be allowed something of the same liberty? Why cannot they be trusted to judge honestly and impartially even though their minds have been wide open to the light in every direction?—*Boston Advertiser*.

It is feared that the day of looking for a juryman as you would for a judge, will long delay its coming. But in all justice, why shouldn't a juryman, who has the power to vote away a man's life, or his liberty, or his property, be just as well read, just as learned, just as capable, if such can be found, as a judge who administers the law? It is vital, as everybody knows, that a judge shall be a man of brains, that he shall be fit in all things to decide between men who take their disputes into court; and it quite often happens that a juror has more power than a judge, why then should he be less capable to do his duty than a judge?

The jury system of the United States is not an honor to our civilization. It is kept in the rear of the march of progress. There is no organized effort to secure reform in this matter. Francis Wayland, whose splendid article on the jury system of the Sandwich Islands was recently printed in the Gazette, has frequently tried to remedy the evil pertaining to jurors, but he has failed. He is an able writer on criminal law, and has made suggestions in regard to juries that are of supreme importance to every litigant and every man charged with the commission of crime, but his suggestions have not been heeded. The old system, with all its errors and danger, seems so be here to stay.

There is no quarter of the Union, says the New York Tribune, where republican prospects are brighter this fall than in the northwest. Our staff correspondent after weeks of painstaking and deliberate study of the political conditions forecasts a popular triumph for the party in every one of the new states, with the hardest struggle in Montana where General Price's army furnished the pioneer settlers after the war. In Washington the victory will be an overwhelming one in the face of demagogic democratic agitation against railway corporations. The republicans have earned unbroken success all along the line, for they have not only strenuously favored the admission of the new states, but have also systematically supported federal legislation for promoting the developement and progress of young and struggling communities. The democratic policy of withholding national aid and making every new territory dependent upon its own resources dates back to Jefferson's time. If the party has not been consistent in any other respect, it has been in its rigid adherence to this old-time tradition. In the political history of the country there has always been a party favoring more legislation and another party wanting more. The democracy is the party of inaction, and the northwest, which is fairly quivering with suppressed activity, is naturally in revolt against it.

Says General John B. Bowman:—"It is my opinion that irrigation will be the means of doubling the population of every western state and territory within the coming ten years. I further believe that in the east, where the rain fall is heavy, but uncertain, irrigation will ultimately be resorted to in order to insure greater regularity of crops. Four-tenths of the area of the United States, not including Alaska, require irrigation. This territory includes part of California, Texas, Kansas, Nebraska, Oregon, all of Arizona, New Mexico, Utah, Wyoming, Montana, and portions of Dakota and Washington."

Says an Englishman: "You Americans are getting so that you have no interest for any time but the present. Years ago we used to think we were pretty wide awake when we coined the phrase, 'men of the day.' But, bless me, you have no use for men of the day; you only care to know 'men of the hour.' And I expect that you will very soon ignore everybody but men of the minute: The American people live on the sharp point of the passing moment, and they seem to enjoy it."

The visible supply of grain afloat and ashore on September 14, as reported by the New York Produce Exchange was: Wheat, 15,697,456 bushels, an increase of 1,599,424 bushels; corn, 12,801,980 bushels, an increase of 802,282 bushels; oats, 5,015,944, a decrease of 195,313 bushels.

For Traveling.

A trunk, to be serviceable, should be full of trays, and the female buyer should look well to this, for it saves more time, trouble and temper than any advice heretofore known. Light dresses should go in the bottom of the trunk; it is the safest place for them, and they will only be wanted after the other garments are on. The first tray above them should contain lingeries, the next all the small appurtenances of the toilet, gloves, shoes, stockings, handkerchiefs and laces, and the tray that shuts up into the top of the trunk can be used to store hats and parasols. Another convenient piece of luggage is a valise made of gray canvas, which is as light as a receptacle two feet long, a foot and a half deep and a foot wide, can be made. It will hold a deal of impediments, as any one will find by experiment, and takes the place to a woman that the convenient flat dress suit does to a gentleman.

Death in the Vinegar Cruet.

Acting under the provisions of a recent law the Secretary of the Indiana State Board of Health has collected samples of the vinegar sold in several Indiana cities, and has just completed a careful analysis. Of eight samples thoroughly tested, but one proves to be pure cider vinegar and the other seven are nothing more than a decoction of rain water and sulphuric acid. The largest vinegar manufactory in Indianapolis, which claims to sell pure apple vinegar, furnished the worst stuff that was found among the samples. The secretary says that it will destroy the stomach even of an ostrich if used liberally. The law as enacted by the last Legislature prohibits the manufacture and sale of any vinegar not the product of pure apple juice. It must not have any artificial coloring; must have an acidity equivalent to the presence of not less than four per cent by weight of acetic acid.

The Mosquito.

To expel mosquitoes, take of gum camphor a piece about one-third the size of a hen's egg, and evaporate it by placing it in a tin vessel and holding it over a lamp, taking care that it does not ignite. The smoke will soon fill the room and expel the mosquitoes, and they will not return, even though the windows should be left open all night.

Wisconsin State Fair at Milwaukee

Returning, will leave Milwaukee at 7.40 p. m. arriving at Janesville at 10:20 p. m. Round trip tickets will be sold from September 14th to 21st, good to return September 23d inclusive, at one fare for the round trip, with 50 cents added for admission to the state fair.

Records Stolen in the Billings Trial.

WATERLOO, Iowa, Sept. 17.—The attorneys for the State in the Billings trial have created a sensation by announcing that portions of the evidence taken at the coroner's jury is missing. These portions include Billings' confession of having prepared false affidavits with which to frighten Kingsley.

Sundry Mishaps.

BARTHOLOMEW BALL, aged 68, was killed in the coal mines at Excelsior, Iowa, by being hit on the forehead by a piece of flying coal from a premature blast.

MRS. JOHN HILSON of Dubuque, Iowa, was fatally burned by her dress catching fire from the cook stove.

A GREEN BAY, WINONA & ST. PAUL train broke through the Wolf river bridge at Shrocton, Wis., wrecking the engine and three box cars. James Doyle, the engineer, was fatally injured. Fireman Bennett was slightly hurt, as were also several others.

NEAR OMRO, Wis., Albert Barth, aged 14, accidentally killed his 7-year-old sister with a shotgun with which he was playing while his parents were at church.

IS COONEY IN CUSTODY?

A RUMOR TO THAT EFFECT CIRCULATED.

A Chicago Paper Gives Alleged Details of His Arrest at St. Paul---Dr. Cronin's Clothes.

CHICAGO, Sept. 17. — The Globe says: Patrick Cooney, "The Fox," is in Chicago. He arrived in the city last Wednesday evening. He was accompanied by a body-guard of four police officers, and is now safely locked up in a cell in a police station in this city. This fact the police still pretend to deny in the face of the most convincing proof, but denials are of no avail at this time, for, notwithstanding their precautions and attempts to keep the matter a profound secret it has leaked out and that, too, through a source which is authoritative.

Cooney was arrested ten days ago in St. Paul by a police officer in that city who had carefully scrutinized his photograph and read descriptions of the man sent out by the police. Chief Hubbard was at once notified by wire of the arrest, and Officer John Collins and two other officers were at once dispatched to St. Paul to identify the prisoner and bring him back. They were instructed to work with the utmost caution and let nothing escape them which would tend to disclose the identity of their prisoner upon pain of dismissal from the force.

As soon as Officer Collins saw the prisoner he called him by name and shook him by the hand. Cooney saw that any attempt at denial as to his identity was useless and returned the salute. After a short consultation he agreed to return to this city without the necessary requisition papers, and arrangements for the trip were speedily made.

PATRICK COONEY.

It was decided that it would be better to travel in the smoking car attached to the train, as the party would attract less attention there than in a special car. It was feared, however, that some of Cooney's friends might learn of his arrest and attempt to rescue him from the officers. The St. Paul officer who made the arrest was invited to accompany the Chicago officers, and he agreed to do so.

The party left St. Paul on the early train Wednesday morning and were driven to the depot in a closed carriage. Cooney was handcuffed between two of the officers and reached the depot just before the departure of the train. Tickets had been procured in advance, and the party entered the forward end of the smoking car. As soon as they entered the car Cooney's feet were shackled, handcuffs placed upon his wrists and a chain passed through the handcuffs and around the arm of the seats and secured with a padlock.

In this way the party came to Chicago, reaching here Wednesday night. Cooney was removed from the train at Western avenue. The officers marched one on either side of Cooney, while the remaining two marched close behind the prisoner. A close carriage was in waiting a few feet from the train, and the party entered it and was driven rapidly away.

Patrick Cooney is supposed to have been one of the principals in the Cronin murder and was a partner of Martin Burke at the time the flat at No. 117 Clark street and the Carlson cottage were rented, and it is known that he can divulge the greater part of the plan to kill Dr. Cronin and the carrying out of the same. That he can successfully put the ropes around the necks of several of the defendants there is no doubt, and it is just that thing that the State is looking for, even if it is necessary to let one of the principals in the brutal crime go free.

CRONIN'S CLOTHES.

An Alleged Plot to Make It Appear the Doctor Was Murdered in England.

CHICAGO, Sept. 17.—The latest story in the Cronin case relates to the alleged plot to make it appear that Dr. Cronin was murdered in London, on the ground that he was a British spy.

It is said that the police are in possession of evidence to show that the conspirators had made arrangements to have found in the Thames river a mutilated and disfigured corpse, arrayed in the clothes which Dr. Cronin wore on the night he disappeared, with his watch and other trinkets. In the pockets of the corpse were to be found forged letters showing that Dr. Cronin had been in correspondence with the detectives of Scotland Yard for a number of years. One of the men now on trial in the Cronin case is said to have been delegated to attend to the American end of the plot. May 7 the man met another conspirator at Sweany's hotel in New York, and it was arranged that the effects of the murdered doctor should be sent England in the sealed iron box which had been procured by Tinsmith Klahre a few days before. The box, it is claimed, was entrusted to a porter on an Inman line steamer, who, in due time, turned it over to a conspirator stationed at Liverpool. This man, it is said, was to look after the rest of the plot. He rented a cottage several miles from London; on the Thames river, and made arrangements to secure from Gray's hospital a corpse resembling in general features the appearance of Dr. Cronin. The idea was to array this corpse in Dr. Cronin's habiliments, throw it into the Thames, and allow it to be found a day or two later, thus shifting from Chicago to London the scene of the crime. The discovery of Dr. Cronin's body in the catch-basin in Lake View up-set the plans of the plotters, and this man fled from the cottage on the night of May 23.

SIX DEAD IN ONE FAMILY.

Terrible Mortality Among Children Traveling from Iowa to Milwaukee.

BOONE, Iowa, Sept. 17.—A family by the name of Zemtbal, consisting of parents and ten children, left Boone early this month for Milwaukee. They went in a wagon, being ten days on the road. News was received from them to-day that diphtheria had broken out in the family on their arrival, and that six of the children died in three days, only two recovering. It is thought they became infected on the road, as no trace of the disease is found in this city.

TODD'S.

"BURTON AND INDIA PALE ALES" are acknowledged by judges to be superior to the Imported English Ales. They have the virtue of being strictly pure—nothing save malt and hops, and of the choicest quality, enters into their composition. Consequently all the nutritive tonic and restorative properties those ingredients are known to possess are found judiciously blended in these brands of ale.—Brewery east end Milwaukee street bridge.

MAY STRIKE AGAIN.

London Dock Laborers Refuse to Work with "Blacklegs."

LONDON, Sept. 17.—At the opening of court to-day the recorder, in charging the grand jury, referred to the recent strike in London. He said that, though an immense number of men had been out of work for weeks and had suffered great privations, there was not a single case on the calendar arising from the strike. The peaceful behavior of the men, he declared, was a subject for national pride.

Most of the strikers resumed work this morning. A thousand unemployed dock laborers are waiting at the gates of the docks. They threaten violence against the men who were employed to take their places, and whom the directors of the dock companies now refuse to discharge.

The situation is so serious that the dock committee, the conciliation committee, and the leaders of the strikers were summoned to a conference at the Mansion house. A deputation of ship owners arrived at the Mansion house while the meeting was in progress. Mr. Burns, one of the leaders of the strikers, announced several cases where unreasonable preference had been given to "blacklegs." It was finally agreed by all those present at the meeting to endeavor to have the agreement kept intact by all the parties interested.

At a meeting at Poplar Mr. Burns said that the treaty with the working men had been broken by subordinate officials of the dock companies. Some of the wharfingers also had tried to get men at the old terms, but had failed. Unless the agreement with the men was kept there would be another strike. The directors of the dock companies, however, had assured him that they would prevent any unfair preference being shown, and the shipowners had advised the directors to pay the fares of the "blacklegs" and send them back to their homes.

Mr. Sydney Buxton, member of Parliament for the Poplar division of Tower Hamlets, expressed the belief that matters would settle down quietly in a few days. He understood from Mr. Tillett that the men would be advised to continue at work, while the "blacklegs" would be gradually weeded out or induced to join the dockmen's union.

HUNTINGTON WON'T HAVE IT.

The Engagement Between His Daughter and the German Prince Broken Off.

PARIS, Sept. 17.—The projected match between Prince Hatzfeldt and the adopted daughter of Mr. C. P. Huntington has been definitely broken off. After a thorough investigation of the matter the Pacific railroad magnate has concluded that he will not pay the prince's enormous debts, which, he beleives, should be settled by the prince's father and mother, who are perfectly able to do so if they wished.

CIGARMAKERS CONVENE.

They Begin Business at Tammany Hall With 200 Delegates Present.

NEW YORK, Sept. 17.—The twenty-fifth annual convention of the International Cigarmakers' union opened at Tammany Hall this morning. It was attended by 200 delegates, representing every State and Territory in the union.

A radical change in the constitution will be made in accordance with a rule by which it is revised every two years, and some very important questions will come up, among which will probably be that of Chinese labor. It is expected also that some interesting information as to the investigation of the eight-hour labor system will be given by the delegates.

The advisory committee has been in communication with members in nearly every city in America, and has many hundreds of letters containing suggestions from people all over the country. The committee has framed a constitution which will be submitted to the convention.

At this morning's session no business was done except to appoint a committee on credentials, after which a recess was taken till afternoon.

ODD-FELLOWS AT COLUMBUS.

Meeting of the Sovereign Grand Lodge---Grand Sire Underwood's Address.

COLUMBUS, Ohio, Sept. 17. — The Sovereign Grand Lodge of Odd-Fellows convened in annual session Monday with 162 representatives present from every State and Territory and from Canada and Europe. The delegates were welcomed to Ohio by Gov. Foraker and to the city by Mayor Bruck and on behalf of Ohio Odd-Fellows by Grand Master McKinley and Grand Patriarch Frost. Thousands of visitors are in the city.

The lodge was called to order at noon by Grand Sire Underwood, who delivered the annual address. He said that there were 1,341,275 white Odd Fellows on the globe, a number fully a quarter of a million larger than the membership of any other civilized secret society. He made many recommendations regarding amendments of the constitution and the discipline of the order and advised the raising of $1,000,000 or more to build a temple for the home of the sovereign lodge.

Grand Secretary Ross made his annual report, showing the great prosperity of the order. A steady rain, pouring down all afternoon and evening, seriously interfered with the musical and military programs.

Will Accept the Cruiser Charleston.

SAN FRANCISCO, Cal., Sept. 17.—The report of the naval board of inspection, concerning the new government cruiser Charleston, shows that vessel to possess an average speed of 18½ knots an hour and a maximum of 19½. The horse power shown was 6,816 average and 7,093 maximum. Officers do not think the forfeit, which amounts to $18,400, will be accepted by the government on account of the builders failing to fill their contract at the time agreed upon. The report is favorable, and recommends that the cruiser be accepted.

RAYMOND, Feb. 28, 1888.

DR. F. B. BREWER: I received your last box of medicine all right. I think I am much better than I was a week ago. I commenced to gain strength as soon as I got the chills and fevers broken up. I don't have those nervous spells any more. I don't cough and raise as much as I did; what I do raise looks pretty bad but no blood, just clear corruption. I have not vomited up my food for about a week. My victuals begin to taste natural. I have a splendid appetite. MRS. A. F. BERDAN,

At this agency is represented many of the Sound, Solid Old Companies of this country and England, among them are
The Sun of London, England,
The oldest stock Insurance company in the world, and one of the largest.
The Old Hartford, of Hartford, Ct.,
Organized in 1794. I have in my office a fac simile of the first policy ever issued by this sterling old company, dated Hartford, Feby. 5th, 1794, which is well worth examination. With its millions of assets, great experience, and the fair and honorable manner which this company has at all times adjusted its losses, accounts for its great popularity and enormous business. All my companies have had great experience, have immense assets, and sound and solid. The most of them have been through all the great fires for years past, including those of Chicago and Boston, and have always paid one hundred cents on the dollar and always will.
THE BEST IS THE CHEAPEST.
I also have a special form policy for dwellings and contents, the shortest and best ever issued. All policies written at lowest possible rates. Please call at my office opposite Rock County National bank

GROFF'S APPOINTMENT.

HIS SELECTION FOR COMMAND OF THE LAND OFFICE.

The Coming Congress of the Three Americas—Named as Indian Commissioners—Capital News.

DEER PARK, Md., Sept. 17.—Lewis A. Groff of Omaha, Neb., has been appointed commissioner of the general land office, vice S. M. Stockslager, resigned. After signing Judge Groff's commission the President devoted the morning to answering personal letters and dictating to his stenographer.

WASHINGTON, Sept. 17.—The appointment of Judge Groff as commissioner of the general land office is very gratifying to the Nebraska people, and, in fact, to everybody from the West, although the Iowa men are disappointed in not securing the promotion of Gov. Stone, who was appointed assistant commissioner only in the administration and has been acting as commissioner since. Gen. Stone's friends say that he went in there with the expectation of being promoted, but at the White House it is said that there never was any such promise or intention. At the Chicago convention there was an understanding between the Indiana managers of Gen. Harrison's canvass and the delegates from the West under which the latter brought their support to him and were assured that a Western man would be appointed to the office.

Judge Groff is reported to be a man of unusual fitness for this position, but was originally a candidate for the vacancy on the Inter-State commission.

THE AMERICAN CONGRESS.

Prominence of the Delegates to the Gathering Next Month.

WASHINGTON, Sept. 17.—The delegates to the international American congress, which is to convene in Washington next month, are among the ablest and foremost public men of the countries they represent.

Honduras will send Geronimo Zeloya, a prominent lawyer. He was minister of foreign affairs for several years. Dr. Fernando Cruz, the representative of Guatemala, is also the new minister from that country to the United States, having succeeded Francisco Lienfesta. He arrived in this country in July and has been spending the summer with his family on Long Island. Dr. Cruz is probably the foremost literary man in Guatemala, as well as a politician of high degree. Much public interest attaches to the forthcoming tour of this country, which will be the first business of the congress. The party will leave Washington Oct. 6, and will be gone forty days.

CONSULAR REPORTS.

The Demand for American Machinery in Mexico—European Crop Prospects.

WASHINGTON, Sept. 17.—Minister Ryan, at the City of Mexico, informs the state department that the value of American machinery from the United States received in the republic of Mexico has increased from $162,384 in 1880 to $4,000,000 in 1889.

Consul Warner, at Cologne, reports that all the Russian crops this year will show a decline, except potatoes and hay, and that winter wheat has fallen off 13 per cent below the average.

Consul Heenan, at Odessa, reports that the Russian crops will show a decrease, and that winter wheat has suffered from the Hessian fly.

To Negotiate with Dakota Indians.

WASHINGTON, Sept. 17. — Secretary Noble has appointed R. B. Valt, assistant commissioner on Indian affairs; B. M. Tinker, an Indian inspector, and G. W. Parker, a special Indian agent, as a commission to negotiate with the Sisseton and Wahpeton Indians of Dakota for the surrender of 789,000 acres of their lands. The Indians of the Sisseton reservation have already agreed to take lands in severalty, and 127,887 acres have been set apart for that purpose: 1,417 acres have also been reserved for church and other purposes.

A Customs Amendment.

WASHINGTON, Sept. 17.—Secretary Windom has issued a circular to customs officers amending articles 804 and 908 of the regulations so as to provide that "consular certificates will not be required for invoices of goods passing through the territory of the United States from one foreign port to another, provided that the manifest invoice or bill of lading shall show such foreign destination and shall contain a general description of the goods in each package, together with their aggregate value."

Past Work of Railway Mail Clerks.

WASHINGTON, Sept. 17.—In the report of the August special "case" examinations of railway mail clerks of the fifth division 114 clerks made an average higher than 90 per cent and ten passed without an error. One clerk correctly distributed 2,088 cards indiscriminately addressed to postoffices and distributing points covering the entire State of Illinois in about two hours, and another correctly distributed 2,869 cards in fifty-nine minutes.

Must Not Meet American Ladies.

WASHINGTON, Sept. 17.—Immediately upon his return to China Mr. Koo of the Chinese legation here will be married to a young woman whom he has never seen, but whom his parents have selected for him. The new Chinese minister has announced in advance his intention not only of restricting the social privileges of the members of the legation, but debarring them altogether from any friendship with American women.

The Cyclone's Direction.

WASHINGTON, Sept. 17.—The cyclone has entered the gulf from the West Indies. Velocities of from 26 to 34 miles per hour are reported from the Florida coast. High and dangerous northeasterly winds will prevail along the east gulf coast this afternoon. It is safe for vessels to proceed south and west from the west gulf ports.

A Chicagoan with a Conscience.

WASHINGTON, Sept. 17.—The Secretary of the Treasury has received a conscience contribution of $200 in an envelope postmarked Chicago. The letter said: "This is Uncle Sam's: put it to his credit."

What War in Europe Means.

BALTIMORE, Md., Sept. 17.—Col. F. Baine, lately consul-general at Berlin, has returned to Baltimore. The colonel says: "The conservatives of France and Germany do not desire war, but Russian ambition may lead to it at any moment. France and Germany should be friends, as Russia and the semi-barbarian elements under the scepter of the Czar are dangerous antagonists of both. With the Russians war means the ascendancy of autocratic ideas, and the death-knell of Republicanism and constitutional government. The thinking men of France are not blind to the objects of Russia and show little inclination to encourage the cry of revenge against Germany."

Dr. B. MINGER, the eminent optician of Detroit, Mich, will visit every town in this county during the summer. Anyone suffering with weak eyes, or eyes abused by inferior glasses, should not fail to see him. Orders left at the postoffice will be promptly attended to. No extra charge for examining or visiting patients at their homes.

SIMPLY PERFECT.

The Union Pacific Railway, "The Over and Route," has equipped its trains with dining cars of the latest pattern, and on and after August 18th the patrons of its fast trains between Council Bluffs and Denver, and between Council Bluffs and Portland, Ore., will be provided with delicious meals, the best the market affords pefectly served, at 75 cents each. Pullman's Palace Car Co. will have charge of the service on these cars.

Inter-State League.

The Davenport baseball club of the Central Inter-State league held a meeting Monday night and disbanded its club, being fully convinced that the combination of opposing forces at work in the league for the last two months is a conspiracy to deprive them of being further successful in the league. The salaries of the players were paid in full and the forfeiture of $600 presented to the league. The Davenports led the league by four games.

Turf Matters.

At Chicago the winners were Festus, Hornpipe, Frank Shaw, Tom Karl, and Evangeline.

The executors of the late Gen. W. T. Withers, the most noted breeder of trotters in the country, have fixed the date of the sale of his stud at Lexington for Oct. 10, 11, and 12. The sale will be the most important dispersion of trotting horses held in the world since the breaking up of the Glen View stud several years ago. The stock to be sold numbers 350 head.

A Lexington, Ky., dispatch says: The high bred and valuable stallion, The Clown, is dead at Ash Grove stud. He was a son of the noted George Wilkes, dam Violet, by Mambrino Star, and was valued at $10,000. His death was caused by an attack of pink-eye.

A DISASTROUS WRECK.

Two Persons Killed and Others Badly Hurt in a Railroad Accident.

ELMIRA, N. Y., Sept. 17.—The Tioga train leaving here at 6 o'clock last night had seven coaches of excursionists returning from the Elmira inter-State fair, and when it arrived at the junction of the Fall Brook railroad collided with a Fall Brook coal train. Nothing authentic can yet be learned of the extent of the casualties. It is certain, however, that two coaches were burned and several people badly hurt.

The names of the dead are:
EUGENE DAIGHUE, newsboy.
HARRY OLIVER of Union, N. Y.

The wounded are:
Ed Bostwick of Lawrenceville, ankle hurt, hands scalded.
WILLIAM WALKER, Leona, Bradford county, Pa., badly scalded and scalp wound.
WILLIAM ARKCOSTELY, Scranton, Pa., traveling for F. W. Fritz, scalded.
JOHN SAMEROOL, Lambs Creek, Pa., nose broken, injured on head.
GEORGE MCMANIE, Tioga, Pa., nose broken back injured.
Mrs. G. N. WRIGHT, Spokane Falls, W. T., left leg broken.
J. B. JUDD, Blossburg, conductor, wounds on head, left shoulder broken.
CHARLES PIERCE, Pine City, N. Y., left leg broken.
Mrs. WALLACE PRYOR, Lawrenceville, slight contusion.
Miss ESTELLA RYAN, head slightly injured.
EMELINE DARLING, Lawrenceville, slightly injured.
ALFRED SHELEY, Crowbridge, Pa., contusions.
HERACHT CAMPBELL, Mansfield Pa., scalded.

Superintendent Knibloe and other Erie officials are here. Men are at work clearing up the wreck.

DEADLY GASOLINE.

A Lamp Explodes in a Store at Peoria, Causing a Lively Panic.

PEORIA, Ill., Sept. 17.—Last evening a gasoline lamp in the basement of the Pardee, Mills & Co. dry goods house was overturned and exploded. Flames shot up the passenger elevator shaft with great fury and rapidly communicated to the other three floors. The store was crowded with customers at the time and a panic ensued. J. A. Wheatley, who was repairing an awning in the basement, was deluged with burning gasoline and it is feared his injuries will be fatal. A baby was also knocked out of its carriage on the stone walk and badly injured.

The loss by fire is slight, but the contents of the store were damaged by smoke and water to the extent of several thousand dollars. There is $92,000 insurance on the stock, which will amply cover all loss.

Burned to Death at St. Joseph.

ST. JOSEPH, Mo., Sept. 17.—It has been discovered that the fire which destroyed the Exposition building Saturday night was attended by one fatality. Capt. Foster of this city, who had charge of the cereal exhibit, had a sleeping-room in the attic of the art hall. He had retired early. No one thought to awaken him when the fire started and he was burned to death. His charred remains were found in the ruins this morning.

Two Wisconsin Fishermen Drowned.

NEENAH, Wis., Sept. 17.—Fred Krohn and Frank Smith of Freemont were drowned yesterday while fishing. They went out early in the morning, and as they did not return at night a search was made, resulting in the finding of the bodies in Wolf river. Krohn leaves a wife and eight children and Smith a wife and two children.

Gave the Robber the Treasure Box.

SACRAMENTO, Cal., Sept. 17.—The stage between Forest Hill and Auburn was stopped this morning by one masked man, who demanded the Wells, Fargo & Co.'s treasure box. The box was given him and he escaped with it. It is not known how much it contained.

Big Strike in Buffalo.

SAWYER RELEASES NAGLE

TERRY'S SLAYER AGAIN AT LIBERTY.

His Act Commended by the Court—Return of a Boodler—Other Criminal News.

SAN FRANCISCO, Cal., Sept. 17.—Justice Sawyer of the United States Circuit court has rendered a decision in the Nagle habeas-corpus case, releasing the slayer of Judge Terry. Many people were in the court-room. Justice Field occupied a seat in the jury-box. Justice Sabin sat on the bench with Justice Sawyer. After the decision was read a notice of appeal to the United States Supreme court was given by the counsel representing the State of California, and Nagle was released on his own recognizance, the bond being fixed at $5,000.

The decision is very long. It reviews the circumstances of the last year, including the threats of Terry and his wife which culminated in the tragedy at Lathrop. In commenting on the subject of jurisdiction Judge Sawyer says:

"There is no conflict between the authority of the State and the United States. The State, in such cases, is subordinate and the national government paramount. There can be no doubt that the jurisdiction of the United States is not affected by reason of the location where the homicide occurred."

The main questions which the court considered are: First, "was the homicide committed by the petitioner while acting in the discharge of duty imposed upon him by the constitution and laws of the United States?" Second, "was the homicide necessary or was it reasonably apparent to the mind of the petitioner at the time and under the circumstances then existing that the killing was necessary in order to get a full and complete discharge of such duty?" The court declares that the marshal is a peace officer so far as keeping peace in any matter wherein the sovereignty of the United States is concerned, and he has all the power of a sheriff in such matters. The constitution provides for a Supreme court and gives to the President the power and duty of seeing that the laws are faithfully executed. The court further declares that only a United States marshal or his deputy could have performed the duty of protecting Justice Field, the use of the State police being impracticable, as the powers of a sheriff would have ended at the borders of his county. Justice Sawyer continues:

"After due consideration we have reached the conclusion that the homicide in question was committed by the petitioner while acting in the discharge of duty imposed upon him by the constitution and laws of the United States. Nagle was on the scene of action, facing the party making the murderous assault. Knowing by personal experience his physical powers and his desperate character, and by general reputation his life-long habit of carrying arms in readiness to use them, and his angry, murderous threats, and seeing his demoniac looks, his stealthy assault from behind, and remembering the sacred trust committed to his charge, Nagle in these trying circumstances was the party to determine when the supreme moment for action had come, and if he honestly acted with reasonable judgment and discretion the law justifies him, even if he erred. But who will have courage to stand up in the presence of the facts developed by the testimony in the case and say he fired the smallest fraction of a second too soon? In my own judgment he acted, under the trying conditions surrounding him, in good faith and with consummate courage, judgment, and discretion. The homicide was, in our opinion, clearly justifiable in law, and in the forum of sound, practical common sense was commendable."

A "BOODLER" RETURNS.

Johnnie Hanigan of Chicago Back From Canada for Trial.

CHICAGO, Sept. 17.—The attorneys, reporters and hangers-on about the Criminal Court building were treated to a great surprise this morning. Johnnie Hanigan, ex-boodle county commissioner, walked in and gave himself up.

Johnnie, for some time past, has been in Tacoma, and more recently in Seattle. He had become tired of wandering about as a fugitive from justice and determined to come and "square" himself with the authorities.

This morning Johnnie, accompanied by his brother Mike, walked into the State's attorney's office. Hanigan announced that he was anxious to be tried on the charges against him and wanted the time set. He said he was prepared to give bail and had brought along his brother and Frank Murphy to act as sureties. The party went before Judge Horton, where the matter was arranged.

There is only one indictment against Hanigan now, the others having been stricken off. Judge Horton fixed the "boodler's" bond at $1,000, which was furnished, and Hanigan walked out of court.

TWO MURDERERS BREAK JAIL.

They Shoot a Deputy Sheriff and Make Good Their Escape.

SOMERSET, Pa., Sept. 17.—The two Nicely brothers, who were confined in jail here under sentence of death for the murder of Farmer Hamburger, overpowered the sheriff this morning, and when the deputy sheriff went to his assistance one of the brothers, who had obtained possession of the sheriff's revolver, shot the deputy, inflicting a serious wound. The murderers then made their escape and have not been recaptured.

DEATH OF BOB YOUNGER.

The Notorious Outlaw Breathes His Last in the Stillwater Penitentiary.

STILLWATER, Minn., Sept. 17.—Bob Younger, the youngest of three outlaw brothers who for thirteen years have been incarcerated in the State prison, died at 10:20 last night. His sister Retta, who came here from Missouri three months ago to attend him, and his brothers, Cole and Jim, were with him when he died. The body will be shipped to Jackson county, Missouri, for interment.

Butchered by His Niece.

ZANESVILLE, Ohio, Sept. 17.—Frank Amos, one of the most prominent citizens of Morgan county, was murdered at his home in the western part of this county by a Mrs. Hampton, his niece, who literally hacked his face and head to pieces with a butcher-knife which she had carried for weeks avowedly for that purpose. The murder grew out of a law suit in which the testimony of Amos threw the costs on Hampton.

The Middlesex county, N. J., grand jury has indicted all the officers and directors of the Raritan river railroad company, Thomas Hussey and William Fisher, a millionaire brick manufacturer of [illegible] river, as accessories to the killing of [illegible] Messinger during the Sayreville [illegible] last.

Dyspepsia
Makes many lives miserable, and often leads to self destruction. Distress after eating, sick headache, heartburn, sour stomach, mental depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:
"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." G. A. PAGE, Watertown, Mass.

GROFF'S APPOINTMENT.

HIS SELECTION FOR COMMAND OF THE LAND OFFICE.

The Coming Congress of the Three Americas—Named as Indian Commissioners—Capital News.

DEER PARK, Md., Sept. 17.—Lewis A. Groff of Omaha, Neb., has been appointed commissioner of the general land office, vice S. M. Stockslager, resigned. After signing Judge Groff's commission the President devoted the morning to answering personal letters and dictating to his stenographer.

WASHINGTON, Sept. 17.—The appointment of Judge Groff as commissioner of the general land office is very gratifying to the Nebraska people, and, in fact, to everybody from the West, although the Iowa men are disappointed in not securing the promotion of Gov. Stone, who was appointed assistant commissioner early in the administration and has been acting as commissioner since. Gen. Stone's friends say that he went in there with the expectation of being promoted, but at the White House it is said that there never was any such promise or intention. At the Chicago convention there was an understanding between the Indiana managers of Gen. Harrison's canvass and the delegates from the West under which the latter brought their support to him and were assured that a Western man would be appointed to the office.

Judge Groff is reported to be a man of unusual fitness for this position, but was originally a candidate for the vacancy on the Inter-State commission.

THE AMERICAN CONGRESS.

Prominence of the Delegates to the Gathering Next Month.

WASHINGTON, Sept. 17.—The delegates to the international American congress, which is to convene in Washington next month, are among the ablest and foremost public men of the countries they represent.

Honduras will send Geronimo Zeloya, a prominent lawyer. He was minister of foreign affairs for several years. Dr. Fernando Cruz, the representative of Guatemala, is also the new minister from that country to the United States, having succeeded Francisco Lienfesta. He arrived in this country in July and has been spending the summer with his family on Long Island. Dr. Cruz is probably the foremost literary man in Guatemala, as well as a politician of high degree. Much public interest attaches to the forthcoming tour of this country, which will be the first business of the congress. The party will leave Washington Oct. 3, and will be gone forty days.

CONSULAR REPORTS.

The Demand for American Machinery in Mexico---European Crop Prospects.

WASHINGTON, Sept. 17.—Minister Ryan, at the City of Mexico, informs the state department that the value of American machinery from the United States received in the republic of Mexico has increased from $162,384 in 1880 to $4,000,000 in 1889.

Consul Warner, at Cologne, reports that all the Russian crops this year will show a decline, except potatoes and hay, and that winter wheat has fallen off 13 per cent below the average.

Consul Heenan, at Odessa, reports that the Russian crops will show a decrease, and that winter wheat has suffered from the Hessian fly.

To Negotate with Dakota Indians.

WASHINGTON, Sept. 17. — Secretary Noble has appointed R. B. Velt, assistant commissioner on Indian affairs; B. M. Tinker, an Indian inspector, and G. W. Parker, a special Indian agent, as a commission to negotiate with the Sisseton and Wahpeton Indians of Dakota for the surrender of 789,000 acres of their lands. The Indians of the Sisseton reservation have already agreed to take lands in severalty, and 127,887 acres have been set apart for that purpose; 1,417 acres have also been reserved for church and other purposes.

A Customs Amendment.

WASHINGTON, Sept. 17.—Secretary Windom has issued a circular to customs officers amending articles 854 and 908 of the regulations so as to provide that "consular certificates will not be required for invoices of goods passing through the territory of the United States from one foreign port to another, provided that the manifest invoice or bill of lading shall show such foreign destination and shall contain a general description of the goods in each package, together with their aggregate value."

Fast Work of Railway Mail Clerks.

WASHINGTON, Sept. 17.—In the report of the August special "case" examinations of railway mail clerks of the fifth division 114 clerks made an average higher than 99 per cent and ten passed without an error. One clerk correctly distributed 2,088 cards indiscriminately addressed to postoffices and distributing points covering the entire State of Illinois in about two hours, and another correctly distributed 1,869 cards in fifty-nine minutes.

Must Not Meet American Ladies.

WASHINGTON, Sept. 17.—Immediately upon his return to China Mr. Koo of the Chinese legation here will be married to a young woman whom he has never seen, but whom his parents have selected for him. The new Chinese minister has announced in advance his intention not only of restricting the social privileges of the members of the legation, but debarring them altogether from any friendship with American women.

The Cyclone's Direction.

WASHINGTON, Sept. 17.—The cyclone has entered the gulf from the West Indies. Velocities of from 26 to 34 miles per hour are reported from the Florida coast. High and dangerous northeasterly winds will prevail along the east gulf coast this afternoon. It is safe for vessels to proceed south and west from the west gulf ports.

A Chicagoan with a Conscience.

WASHINGTON, Sept. 17.—The Secretary of the Treasury has received a conscience contribution of $200 in an envelope postmarked Chicago. The letter said: "This is Uncle Sam's; put it to his credit."

What War in Europe Means.

BALTIMORE, Md., Sept. 17.—Col. F. Baine, lately consul-general at Berlin, has returned to Baltimore. The colonel says: "The conservatives of France and Germany do not desire war, but Russian ambition may lead to it at any moment. France and Germany should be friends, as Russia and the semi-barbarian elements under the scepter of the Czar are dangerous antagonists of both. With the Russians war means the ascendancy of autocratic ideas, and the death-knell of Republicanism and constitutional government. The thinking men of France are not blind to the objects of Russia, and show little inclination to encourage the cry of revenge against Germany."

Dr. B. MINCER, the eminent optician of Detroit, Mich, will visit every town in this county during the summer. Anyone suffering with weak eyes, or eyes abused by inferior glasses, should not fail to see him. Orders left at the postoffice will be promptly attended to. No extra charge for examing or visiting patients at their homes.

SIMPLY PERFECT.

The Union Pacific Railway, "The Over and Route," has equipped its trains with dining cars of the latest pattern, and on and after August 18th the patrons of its fast trains between Council Bluffs and Denver, and between Council Bluffs and Portland, Ore., will be provided with delicious meals, the best the market affords pefectly served, at 75 cents each. Pullman's Palace Car Co. will have charge of the service on these cars.

Inter-State League.

The Davenport baseball club of the Central Inter-State league held a meeting Monday night and disbanded its club, being fully convinced that the combination of opposing forces at work in the league for the last two months is a conspiracy to deprive them of being further successful in the league. The salaries of the players were paid in full and the forfeiture of $600 presented to the league. The Davenports led the league by four games.

Turf Matters.

At Chicago the winners were Festus, Hornpipe, Frank Shaw, Tom Karl, and Evangeline.

The executors of the late Gen. W. T. Withers, the most noted breeder of trotters in the country, have fixed the date of the sale of his stud at Lexington for Oct. 10, 11, and 12. The sale will be the most important dispersion of trotting horses held in the world since the breaking up of the Glen View stud several years ago. The stock to be sold numbers 350 head.

A Lexington, Ky., dispatch says: The high bred and valuable stallion, The Clown, is dead at Ash Grove stud. He was a son of the noted George Wilkes, dam Violet, by Mambrino Star, and was valued at $10,000. His death was caused by an attack of pink-eye.

A DISASTROUS WRECK.

Two Persons Killed and Others Badly Hurt in a Railroad Accident.

ELMIRA, N. Y., Sept. 17.—The Tioga train leaving here at 6 o'clock last night had seven coaches of excursionists returning from the Elmira inter-State fair, and when it arrived at the junction of the Fall Brook railroad collided with a Fall Brook coal train. Nothing authentic can yet be learned of the extent of the casualties. It is certain, however, that two coaches were burned and several people badly hurt.

The names of the dead are:
EUGENE DAIGHUE, newsboy.
HARRY OLIVER of Union, N. Y.

The wounded are:
ED BOSTWICK of Lawrenceville, ankle hurt, hands scalded.
WILLIAM WALKER, Leona, Bradford county, Pa., badly scalded and scalp wound.
WILLIAM APERCOSTLY, Scranton, Pa., traveling for F. W. Fritz, scalded.
JOHN SAMEPOOL, Lambs Creek, Pa., nose broken, injured on head.
GEORGE MCMANIE, Tioga, Pa., nose broken back injured.
Mrs. G. N. WRIGHT, Spokane Falls, W. T., left leg broken.
J. B. JUDD, Blossburg, conductor, wounds on head, left shoulder broken.
CHARLES PIERCE, Pine City, N. Y., left leg broken.
Mrs. WALLACE PRYOR, Lawrenceville, slight contusion.
Miss ESTELLA RYAN, head slightly injured.
EMELINE DARLING, Lawrenceville, slightly injured.
ALFRED SEELEY, Trowbridge, Pa., contusions.
HERBERT CAMPBELL, Mansfield Pa., scalded.

Superintendent Knibloe and other Erie officials are here. Men are at work clearing up the wreck.

DEADLY GASOLINE.

A Lamp Explodes in a Store at Peoria, Causing a Lively Panic.

PEORIA, Ill., Sept. 17.—Last evening a gasoline lamp in the basement of the Pardee, Mills & Co. dry goods house was overturned and exploded. Flames shot up the passenger elevator shaft with great fury and rapidly communicated to the other three floors. The store was crowded with customers at the time and a panic ensued. J. A. Whetlony, who was repairing an awning in the basement, was deluged with burning gasoline and it is feared his injuries will be fatal. A baby was also knocked out of its carriage on the stone walk and badly injured

The loss by fire is slight, but the contents of the store were damaged by smoke and water to the extent of several thousand dollars. There is $92,000 insurance on the stock, which will amply cover all loss.

Burned to Death at St. Joseph.

ST. JOSEPH, Mo., Sept. 17.—It has been discovered that the fire which destroyed the Exposition building Saturday night was attended by one fatality. Capt. Foster of this city, who had charge of the cereal exhibit, had a sleeping-room in the attic of the art hall. He had retired early. No one thought to awaken him when the fire started and he was burned to death. His charged remains were found in the ruins this morning.

Two Wisconsin Fishermen Drowned.

NEENAH, Wis., Sept. 17.—Fred Krohn and Frank Smith of Freemont were drowned yesterday while fishing. They went out early in the morning, and as they did not return at night a search was made, resulting in the finding of the bodies in Wolf river. Krohn leaves a wife and eight children and Smith a wife and two children.

Gave the Robber the Treasure Box.

SACRAMENTO, Cal., Sept. 17.—The stage between Forest Hill and Auburn was stopped this morning by one masked man, who demanded the Wells, Fargo & Co.'s treasure box. The box was given him and he escaped with it. It is not known how much it contained.

Big Strike in Buffalo.

SAWYER RELEASES NAGLE

TERRY'S SLAYER AGAIN AT LIBERTY.

His Act Commended by the Court—Return of a Boodler—Other Criminal News.

SAN FRANCISCO, Cal., Sept. 17.—Justice Sawyer of the United States Circuit court has rendered a decision in the Nagle habeas-corpus case, releasing the slayer of Judge Terry. Many people were in the court-room. Justice Field occupied a seat in the jury-box. Justice Sabin sat on the bench with Justice Sawyer. After the decision was read a notice of appeal to the United States Supreme court was given by the counsel representing the State of California, and Nagle was released on his own recognizance, the bond being fixed at $5,000.

The decision is very long. It reviews the circumstances of the last year, including the threats of Terry and his wife which culminated in the tragedy at Lathrop. In commenting on the subject of jurisdiction Judge Sawyer says:

"There is no conflict between the authority of the State and the United States. The State, in such cases, is subordinate and the national government paramount. There can be no doubt that the jurisdiction of the United States is not affected by reason of the location where the homicide occurred."

The main questions which the court considered are: First, "was the homicide committed by the petitioner while acting in the discharge of duty imposed upon him by the constitution and laws of the United States?" Second, "was the homicide necessary or was it reasonably apparent to the mind of the petitioner at the time and under the circumstances then existing that the killing was necessary in order to get a full and complete discharge of such duty?" The court declares that the marshal is a peace officer so far as keeping peace in any matter wherein the sovereignty of the United States is concerned, and he has all the power of a sheriff in such matters. The constitution provides for a Supreme court and gives to the President the power and duty of seeing that the laws are faithfully executed. The court further declares that only a United States marshal or his deputy could have performed the duty of protecting Justice Field, the use of the State police being impracticable, as the powers of a sheriff would have ended at the borders of his county. Justice Sawyer continues:

"After due consideration we have reached the conclusion that the homicide in question was committed by the petitioner while acting in the discharge of duty imposed upon him by the constitution and laws of the United States. Nagle was on the scene of action, facing the party making the murderous assault. Knowing by personal experience his physical powers and his desperate character, and by general reputation his life-long habit of carrying arms in readiness to use them, and his angry, murderous threats, and seeing his demoniac looks, his stealthy assault from behind, and remembering the sacred trust committed to his charge, Nagle in these trying circumstances was the party to determine when the supreme moment for action had come, and if he honestly acted with reasonable judgment and discretion the law justifies him, even if he erred. But who will have courage to stand up in the presence of the facts developed by the testimony in the case and say he fired the smallest traction of a second too soon? In my own judgment he acted, under the trying conditions surrounding him, in good faith and with consummate courage, judgment, and discretion. The homicide was, in our opinion, clearly justifiable in law, and in the forum of sound, practical common sense was commendable."

A "BOODLER" RETURNS.

Johnnie Hamigan of Chicago Back From Canada for Trial.

CHICAGO, Sept. 17.—The attorneys, reporters and hangers-on about the Criminal Court building were treated to a great surprise this morning. Johnnie Hamigan, ex-boodle county commissioner, walked in and gave himself up.

Johnnie, for some time past, has been in Tacoma, and more recently in Seattle. He had become tired of wanbering about as a fugitive from justice and determined to come and "square" himself with the authorities.

This morning Johnnie, accompanied by his brother Mike, walked into the State's attorney's office. Hannigan announced that he was anxious to be tried on the charges against him and wanted the time set. He said he was prepared to give bail and had brought along his brother and Frank Murphy to act as sureties. The party went before Judge Horton, where the matter was arranged.

There is only one indictment against Hannigan now, the others having been stricken off. Judge Horton fixed the "boodler's" bond at $1,000, which was furnished, and Hannigan walked out of court.

TWO MURDERERS BREAK JAIL.

They Shoot a Deputy Sheriff and Make Good Their Escape.

SOMERSET, Pa., Sept. 17.—The two Nicely brothers, who were confined in jail here under sentence of death for the murder of Farmer Hamburger, overpowered the sheriff this morning, and when the deputy sheriff went to his assistance one of the brothers, who had obtained possession of the sheriff's revolver, shot the deputy, inflicting a serious wound. The murderers then made their escape and have not been recaptured.

DEATH OF BOB YOUNGER.

The Notorious Outlaw Breathes His Last in the Stillwater Penitentiary.

STILLWATER, Minn., Sept. 17.—Bob Younger, the youngest of three outlaw brothers who for thirteen years have been incarcerated in the State prison, died at 10:20 last night. His sister Retta, who came here from Missouri three months ago to attend him, and his brothers, Cole and Jim, were with him when he died. The body will be shipped to Jackson county, Missouri, for interment.

Butchered by His Niece.

ZANESVILLE, Ohio, Sept. 17.—Frank Amos, one of the most prominent citizens of Morgan county, was murdered at his home in the western part of this county by a Mrs. Hampton, his niece, who literally hacked his face and head to pieces with a butcher-knife which she had carried for weeks avowedly for that purpose. The murder grew out of a law suit in which the testimony of Amos threw the costs on Hampton.

THE Middlesex county, N. J., grand jury has indicted all the officers and directors of the Raritan river railroad company; Thomas Hussey and William Fisher, millionaire brick manufacturer of Perth Amboy, as accessories to the killing of [illegible] Gessinger during the Saverville [illegible] last.

Dyspepsia

Makes many lives miserable, and often leads to self destruction. Distress after eating, sick headache, heartburn, sour stomach, mental depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." G. A. PAGE, Watertown, Mass.

GROFF'S APPOINTMENT.

HIS SELECTION FOR COMMAND OF THE LAND OFFICE.

The Coming Congress of the Three Americas—Named as Indian Commissioners—Capital News.

DEER PARK, Md., Sept. 17.—Lewis A. Groff of Omaha, Neb., has been appointed commissioner of the general land office, vice S. M. Stockslager, resigned. After signing Judge Groff's commission the President devoted the morning to answering personal letters and dictating to his stenographer.

WASHINGTON, Sept. 17.—The appointment of Judge Groff as commissioner of the general land office is very gratifying to the Nebraska people, and, in fact, to everybody from the West, although the Iowa men are disappointed in not securing the promotion of Gov. Stone, who was appointed assistant commissioner early in the administration and has been acting as commissioner since. Gen. Stone's friends say that he went in there with the expectation of being promoted, but at the White House it is said that there never was any such promise or intention. At the Chicago convention there was an understanding between the Indiana managers of Gen. Harrison's canvass and the delegates from the West under which the latter brought their support to him and were assured that a Western man would be appointed to the office.

Judge Groff is reported to be a man of unusual fitness for this position, but was originally a candidate for the vacancy on the Inter-State commission.

THE AMERICAN CONGRESS.

Preponderance of the Delegates to the Gathering Next Month.

WASHINGTON, Sept. 17.—The delegates to the international American congress, which is to convene in Washington next month, are among the ablest and foremost public men of the countries they represent.

Honduras will send Geronimo Zelaya, a prominent lawyer. He was minister of foreign affairs for several years. Dr. Fernando Cruz, the representative of Guatemala, is also the new minister from that country to the United States, having succeeded Francisco Lienfesta. He arrived in this country in July and has been spending the summer with his family on Long Island. Dr. Cruz is probably the foremost literary man in Guatemala, as well as a politician of high degree. Much public interest attaches to the forthcoming tour of this country, which will be the first business of the congress. The party will leave Washington Oct. 8, and will be gone forty days.

CONSULAR REPORTS.

The Demand for American Machinery in Mexico—European Crop Prospects.

WASHINGTON, Sept. 17.—Minister Ryan, at the City of Mexico, informs the state department that the value of American machinery from the United States received in the republic of Mexico has increased from $162,384 in 1880 to $4,000,000 in 1889.

Consul Warner, at Cologne, reports that all the Russian crops this year will show a decline, except potatoes and hay, and that winter wheat has fallen off 13 per cent below the average.

Consul Heenan, at Odessa, reports that the Russian crops will show a decrease, and that winter wheat has suffered from the Hessian fly.

To Negotiate with Dakota Indians.

WASHINGTON, Sept. 17. — Secretary Noble has appointed R. B. Veit, assistant commissioner on Indian affairs; B. M. Tinker, an Indian inspector, and G. W. Parker, a special Indian agent, as a commission to negotiate with the Sisseton and Wahpeton Indians of Dakota for the surrender of 780,000 acres of their lands. The Indians of the Sisseton reservation have already agreed to take lands in severalty, and 127,887 acres have been set apart for that purpose; 1,417 acres have also been reserved for church and other purposes.

A Customs Amendment.

WASHINGTON, Sept. 17.—Secretary Windom has issued a circular to customs officers amending articles 854 and 903 of the regulations so as to provide that "consular certificates will not be required for invoices of goods passing through the territory of the United States from one foreign port to another, provided that the manifest invoice or bill of lading shall show such foreign destination and shall contain a general description of the goods in each package, together with their aggregate value."

Fast Work of Railway Mail Clerks.

WASHINGTON, Sept. 17.—In the report of the August special "case" examinations of railway mail clerks of the fifth division 114 clerks made an average higher than 99 per cent and ten passed without an error. One clerk correctly distributed 2,088 cards indiscriminately addressed to postoffices and distributing points covering the entire State of Illinois in about two hours, and another correctly distributed 1,869 cards in fifty-nine minutes.

Must Not Marry American Ladies.

WASHINGTON, Sept. 17.—Immediately upon his return to China Mr. Koo of the Chinese legation here will be married to a young woman whom he has never seen, but whom his parents have selected for him. The new Chinese minister has announced in advance his intention not only of restricting the social privileges of the members of the legation, but debarring them altogether from any friendship with American women.

The Cyclone's Direction.

WASHINGTON, Sept. 17.—The cyclone has entered the gulf from the West Indies. Velocities of from 26 to 84 miles per hour are reported from the Florida coast. High and dangerous northeasterly winds will prevail along the east gulf coast this afternoon. It is safe for vessels to proceed south and west from the west gulf ports.

A Chicagoan with a Conscience.

WASHINGTON, Sept. 17.—The Secretary of the Treasury has received a conscience contribution of $200 in an envelope postmarked Chicago. The letter said: "This is Uncle Sam's; put it to his credit."

What War in Europe Means.

BALTIMORE, Md., Sept. 17.—Col. F. Baine, lately consul-general at Berlin, has returned to Baltimore. The colonel says: "The conservatives of France and Germany do not desire war, but Russian ambition may lead to it at any moment. France and Germany should be friends, as Russia and the semi-barbarian elements under the scepter of the Czar are dangerous antagonists of both. With the Russians war means the ascendancy of autocratic ideas, and the death-knell of Republicanism and constitutional government. The thinking men of France are not blind to the objects of Russia, and show little inclination to encourage the cry of revenge against Germany."

Dr. B. MINGER, the eminent optician of Detroit, Mich, will visit every town in this county during the summer. Anyone suffering with weak eyes, or eyes abused by inferior glasses, should not fail to see him. Orders left at the postoffice will be promptly attended to. No extra charge for examing or visiting patients at their homes.

Turf Matters.

At Chicago the winners were Festus, Horsipipe, Frank Shaw, Tom Karl, and Evangoline.

The executors of the late Gen. W. T. Withers, the most noted breeder of trotters in the country, have fixed the date of the sale of his stud at Lexington for Oct. 10, 11, and 12. The sale will be the most important dispersion of trotting horses held in the world since the breaking up of the Glen View stud several years ago. The stock to be sold numbers 250 head.

A Lexington, Ky., dispatch says: The high bred and valuable stallion, The Clown, is dead at Ash Grove stud. He was a son of the noted George Wilkes, dam Violet, by Mambrino Star, and was valued at $10,000. His death was caused by an attack of pink-eye.

A DISASTROUS WRECK.

Two Persons Killed and Others Badly Hurt in a Railroad Accident.

ELMIRA, N. Y., Sept. 17.—The Tioga train leaving here at 6 o'clock last night had seven coaches of excursionists returning from the Elmira inter-State fair, and when it arrived at the junction of the Fall Brook railroad collided with a Fall Brook coal train. Nothing authentic can yet be learned of the extent of the casualties. It is certain, however, that two coaches were burned and several people badly hurt.

The names of the dead are:
EUGENE DAIGHUE, newsboy.
HARRY OLIVER of Union, N. Y.

The wounded are:
ED HOSTWICK of Lawrenceville, ankle hurt, hands scalded.
WILLIAM WALKER, Loone, Bradford county, Pa., badly scalded and scalp wound.
WILLIAM ATTERCOSTLY, Scranton, Pa., traveling for F. W. Fritz, scalded.
JOHN SAMPSON, Lumbs Creek, Pa., nose broken, injured on head.
GEORGE MCMANIE, Tioga, Pa., nose broken back injured.
Mrs. G. N. WRIGHT, Spokane Falls, W. T., left leg broken.
J. B. JUDD, Blossburg, conductor, wounds on head, left shoulder broken.
CHARLES PIERCE, Pine City, N. Y., left leg broken.
Mrs. WALLACE PRYON, Lawrenceville, slight contusion.
Miss ESTELLA RYAN, head slightly injured.
EMELINE DARLING, Lawrenceville, slightly injured.
ALFRED SEELEY, Trowbridge, Pa., contusions.
HERBERT CAMPBELL, Mansfield Pa., scalded.

Superintendent Knibloe and other Erie officials are here. Men are at work clearing up the wreck.

DEADLY GASOLINE.

A Lamp Explodes in a Store at Peoria, Causing a Lively Panic.

PEORIA, Ill., Sept. 17.—Last evening a gasoline lamp in the basement of the Pardee, Mills & Co. dry goods house was overturned and exploded. Flames shot up the passenger elevator shaft with great fury and rapidly communicated to the other three floors. The store was crowded with customers at the time and a panic ensued. J. A. Whetlony, who was repairing an awning in the basement, was deluged with burning gasoline and it is feared his injuries will be fatal. A baby was also knocked out of its carriage on the stone walk and badly injured.

The loss by fire is slight, but the contents of the store were damaged by smoke and water to the extent of several thousand dollars. There is $82,000 insurance on the stock, which will amply cover all loss.

Burned to Death at St. Joseph.

ST. JOSEPH, Mo., Sept. 17.—It has been discovered that the fire which destroyed the Exposition building Saturday night was attended by one fatality. Capt. Foster of this city, who had charge of the corsal exhibit, had a sleeping-room in the attic of the art hall. He had retired early. No one thought to awaken him when the fire started and he was burned to death. His charged remains were found in the ruins this morning.

Two Wisconsin Fishermen Drowned.

NEENAH, Wis., Sept. 17.—Fred Krohn and Frank Smith of Freemont were drowned yesterday while fishing. They went out early in the morning, and as they did not return at night a search was made, resulting in the finding of the bodies in Wolf river. Krohn leaves a wife and eight children and Smith a wife and two children.

Gave the Robber the Treasure Box.

SACRAMENTO, Cal., Sept. 17.—The stage between Forest Hill and Auburn was stopped this morning by one masked man, who demanded the Wells, Fargo & Co.'s treasure box. The box was given him and he escaped with it. It is not known how much it contained.

Big Strike in Buffalo.

SAWYER RELEASES NAGLE

TERRY'S SLAYER AGAIN AT LIBERTY.

His Act Commended by the Court—Return of a Boodler—Other Criminal News.

SAN FRANCISCO, Cal., Sept. 17.—Justice Sawyer of the United States Circuit court has rendered a decision in the Nagle habeas-corpus case, releasing the slayer of Judge Terry. Many people were in the court-room. Justice Field occupied a seat in the jury-box. Justice Sabin sat on the bench with Justice Sawyer. After the decision was read a notice of appeal to the United States Supreme court was given by the counsel representing the State of California, and Nagle was released on his own recognizance, the bond being fixed at $5,000.

The decision is very long. It reviews the circumstances of the last year, including the threats of Terry and his wife which culminated in the tragedy at Lathrop. In commenting on the subject of jurisdiction Judge Sawyer says:

"There is no conflict between the authority of the State and the United States. The State, in such cases, is subordinate and the national government paramount. There can be no doubt that the jurisdiction of the United States is not affected by reason of the location where the homicide occurred."

The main questions which the court considered are: First, "was the homicide committed by the petitioner while acting in the discharge of duty imposed upon him by the constitution and laws of the United States?" Second, "was the homicide necessary or was it reasonably apparent to the mind of the petitioner at the time and under the circumstances then existing that the killing was necessary in order to get a full and complete discharge of such duty?" The court declares that the marshal is a peace officer so far as keeping peace in any matter wherein the sovereignty of the United States is concerned, and he has all the power of a sheriff in such matters. The constitution provides for a Supreme court and gives to the President the power and duty of seeing that the laws are faithfully executed. The court further declares that only a United States marshal or his deputy could have performed the duty of protecting Justice Field, the use of the State police being impracticable, as the powers of a sheriff would have ended at the borders of his county. Justice Sawyer continues:

"After due consideration we have reached the conclusion that the homicide in question was committed by the petitioner while acting in the discharge of duty imposed upon him by the constitution and laws of the United States. Nagle was on the scene of action, facing the party making the murderous assault. Knowing by personal experience his physical powers and his desperate character, and by general reputation his life-long habit of carrying arms in readiness to use them, and his angry, murderous threats, and seeing his demoniac looks, his stealthy assault from behind, and remembering the sacred trust committed to his charge, Nagle in these trying circumstances was the party to determine when the supreme moment for action had come, and if he honestly acted with reasonable judgment and discretion the law justifies him, even if he erred. But who will have courage to stand up in the presence of the facts developed by the testimony in the case and say he fired the smallest fraction of a second too soon? In my own judgment he acted, under the trying conditions surrounding him, in good faith and with consummate courage, judgment, and discretion. The homicide was, in our opinion, clearly justifiable in law, and in the forum of sound, practical common sense was commendable."

A "BOODLER" RETURNS.

Johnnie Hanigan of Chicago Back From Canada for Trial.

CHICAGO, Sept. 17.—The attorneys, reporters and hangers-on about the Criminal Court building were treated to a great surprise this morning, Johnnie Hanigan, ex-boodle county commissioner, walked in and gave himself up.

Johnnie, for some time past, has been in Tacoma, and more recently in Seattle. He had become tired of wandering about as a fugitive from justice and determined to come and "square" himself with the authorities.

This morning Johnnie, accompanied by his brother Mike, walked into the State's attorney's office. Hanigan announced that he was anxious to be tried on the charges against him and wanted the time set. He said he was prepared to give bail and had brought along his brother and Frank Murphy to act as sureties. The party went before Judge Horton, where the matter was arranged.

There is only one indictment against Hanigan now, the others having been stricken off. Judge Horton fixed the "boodler's" bond at $1,000, which was furnished, and Hanigan walked out of court.

TWO MURDERERS BREAK JAIL.

They Shoot a Deputy Sheriff and Make Good Their Escape.

SOMERSET, Pa., Sept. 17.—The two Nicely brothers, who were confined in jail here under sentence of death for the murder of Farmer Hamburger, overpowered the sheriff this morning, and when the deputy sheriff went to his assistance one of the brothers, who had obtained possession of the sheriff's revolver, shot the deputy, inflicting a serious wound. The murderers then made their escape and have not been recaptured.

DEATH OF BOB YOUNGER.

The Notorious Outlaw Breathes His Last in the Stillwater Penitentiary.

STILLWATER, Minn., Sept. 17.—Bob Younger, the youngest of three outlaw brothers who for thirteen years have been incarcerated in the State prison, died at 10:20 last night. His sister Retta, who came here from Missouri three months ago to attend him, and his brothers, Cole and Jim, were with him when he died. The body will be shipped to Jackson county, Missouri, for interment.

Butchered by His Niece.

ZANESVILLE, Ohio, Sept. 17.—Frank Ames, one of the most prominent citizens of Morgan county, was murdered at his home in the western part of this county by a Mrs. Hampton, his niece, who literally hacked his face and head to pieces with a butcher-knife which she had carried for weeks avowedly for that purpose. The murder grew out of a law suit in which the testimony of Amos threw the costs on Hampton.

THE Middlesex county, N. J., grand jury has indicted all the officers and directors of the Raritan river railroad company; Thomas Hussey and William Fisher, a millionaire brick manufacturer of [illegible] river, as accessories to the killing of [illegible] passenger during the Saverville [illegible] last.

Dyspepsia
Makes many lives miserable, and often leads to self destruction. Distress after eating, sick headache, heartburn, sour stomach, mental depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of dyspepsia. Read the following:
"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." G. A. PAGE, Watertown, Mass.

SECOND POINT

You should read THE CHICAGO DAILY NEWS because *you have the time to read it.* There is a paper published in Australia which is as large as a blanket. This wouldn't suit you. You want a newspaper at once convenient, complete and condensed, and still you don't want to overlook anything of real importance. You don't want your neighbor to say to you, "Did you read so-and-so in to-day's paper? and be obliged to answer, "No, I didn't see that," and then have him ask you, "What paper do you read?" This will never happen to you if you read THE CHICAGO DAILY NEWS.

TO MONTANA, OREGON AND WASHINGTON.

If you are going west bear in mind the following facts: The Northern Pacific Railroad owns and operates 987 miles, or 57 per cent. of the entire railroad mileage of Montana; spans the territory with its main lines from east to west; is the short line to Helena; the only Pullman and dining car line to Butte, and is the only line that reaches Miles City, Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, nine-tenths of the cities and points of interest in the territory.

The Northern Pacific owns and operates 621 miles or 56 per cent of the railroad mileage of Washington, its main line extending from the Idaho line via Spokane Falls, Cheney, Sprague, Yakima and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacoma to Portland. No other transcontinental through rail line reaches any portion of Washington Territory. Ten days stop over privileges are given on Northern Pacific second class tickets at Spokane Falls and all points west, thus affording intending settlers an excellent opportunity to see the entire territory without incurring the expense of paying local fares from point to point.

The Northern Pacific is the shortest route from St. Paul to Tacoma by 207 miles; to Seattle by 177 miles, and to Portland by 324 miles—time correspondingly shorter, varying from one to two days, according to destination. No other line from St. Paul or Minneapolis runs through passenger cars of any kind into Idaho, Oregon or Washington.

In addition to being the only rail line to Spokane Falls, Tacoma and Seattle, the Northern Pacific reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon and Washington. Bear in mind that the Northern Pacific and Shasta line is the scenic route to all points in California.

Send for illustrated pamphlets, maps, and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington, Territory, and enclose stamps for the new 1889 Rand McNally County map of Washington Territory, printed in colors.

Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal toilet use. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the

Efficacy

of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color."—(Rev.) S. S. Sims, Pastor U. B. Church, St. Bernice, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of tetter. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color, *and firmly set.*"—J. H. Pratt, Spofford, Texas.

Is Consumption Incurable?

Read the following; Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles. Was given up by doctors. Am now in the best of health." Try it. Sample bottles free at F. Sherer & Co's drugstore.

STREETS PAVED WITH JASPER.

The Hardest Stone in the Country Utilized in Many Ways.

Within two years the jasper industry has been developed, says a Dakota letter, and there are now four quarries, employing nearly 1,000 men, in operation about Sioux Falls. The market extends from Chicago to Kansas City. Sioux Falls' streets are paved with jasper, and her four-story buildings are constructed of it. The stone is susceptible of a high degree of polish, and when finished it looks much like the red granite of Missouri. The pioneers in the jasper industry discovered not long ago that the dust of the jasper, which is half as hard as diamonds, would polish the famous petrified wood of Arizona, and make of it table tops and ornaments more beautiful than agate or onyx. The petrified wood is now brought from Arizona to Sioux Falls by the car-load, and cut and polished in a variety of forms. To her jasper industry the city has added the manufacture of Chalcedony. If these enterprising people do not find all of the precious things mentioned in the Book of Revelations it will not be for the want of searching.

There is a scientific mystery about this so-called jasper. Practically it is all right—its utility has been established—but geologically there is no little uncertainty about it. Those who know the most are the least positive in discussing its character. Some of the scientific men who have looked at it call it a red quartzite. Prof. Winchell says it is the hardest stone in the United States that has been used for building purposes. The grain is very close. The only element to which it succumbs is fire. It will stand a good degree but crumbles like limestone and soapstone under too intense heat. In the last day, when all the elements melt with fervent heat, the Sioux Falls jasper will have to go.

Vigor and Vitality

Are quickly given to every part of the body by Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidney and liver is aroused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

Strawberries on Toast.

An ex-officer of the British army, who has spent many years in India and Africa, came to New York recently, and is striving hard to learn how people in that city acts. He finds a great deal to amuse him in the way food is served in the restaurants, and his friends usually enjoy a hearty laugh when he takes dinner with them, as he seldom fails to see something about which to make some quaint remark in expressing his astonishment. A few days ago this loyal Briton was, as usual, eating dinner, enlarging upon the superiority of things English as compared with what he had seen here, when, the more substantial viands having been consumed, one of the party ordered strawberry shortcake for dessert. The waiter filled the order about as promptly as is usual in downtown restaurants, and the Captain viewed the dish with surprise. He seemed unable to comprehend it at first, but before the delicacy had been eaten he seemed to have solved the problem. Then he surprised those around him by exclaiming: "By Jove! that must be nice! Strawberries on toast is a queer dish, though."

Sport for the Monkey.

A slim, eye-glassed, crimson-sashed dude had an unlucky experience at the Zoo yesterday, says the Philadelphia Record. He was in the monkey-house. A dear girl was clinging trembling to his coat-sleeve, and both were engaged in the innocent amusement of administering peanuts to a group of Darwinian theorists. There was one monkey, unfortunately, whose tastes were rather esthetic than epicurean, and it took him but a moment to size up the flamboyant waistband. In a second the monkey had the sash and was scrambling to the roof of the cage.

The youth gave a horrible shout, the maid shrank in terror, but Jocko was cool and collected. He amused himself the rest of the afternoon by chewing silken rags and pelting his brethren with the quids.

NEW YORK, Sept. 16.— First sales this morning showed declines from Saturday's closing figure of from ⅛ to ⅜ per cent generally. There was considerable activity in Reading, St. Paul, Erie, Louisville & Nashville, Northern Pacific preferred, and New England. The market displayed a better tone later in the hour, and, though becoming dull, generally recovered the losses. At 11 o'clock the market was quiet but steady to firm at about opening prices. The market remained quiet after 11 o'clock. At noon the market and the close was quiet and heavy, generally at insignificant changes from the opening prices.

PARIS, Sept. 16.—Several men were slightly injured by an explosion to-day in a foundry on Rue Popincourt. The establishment belonged to M. Corvilain, at whose Antwerp factory the recent disastrous explosion took place.

HARVEST EXCURSIONS.

The Chicago, Milwaukee & St. Paul railway company have made arrangements for several harvest excursions through the far west. The fare on these excursions will be one fare for the round trip. Tickets will be sold on August 6th and 20th, September 10th and 24th and October 8th, good for thirty days from date of sale, stop over privileges to be granted at any point west of the Mississippi river. These excursions will reach points in western Minnesota, Dakota, Iowa, Montana, Nebraska Colorado, Arkansas, Texas, Indian Territory, New Mexico, Arizona and Idaho. This affords our people an excellent opportunity to visit these states and territories at a small expense.

Hay Fever sufferers ought to know of its efficacy. Ely's Cream Balm was recommended to me as a preventive to hay fever. Have been using it since the 9th of August and have found it a specific for that much dreaded disease. For ten years I have been a great sufferer from August 9th till frost and have tried many alleged remedies, but Ely's Cream Balm is the only preventive I have ever found. —F. B. Ainsworth, publisher, Indianapolis, Ind.

Very Risky Indeed.

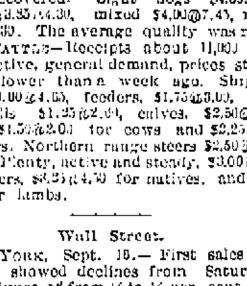

To tamper with symptoms indicative of growing kidney disorder; to neglect for a brief time needful stimulation of the renal organs when their inactivity points, as it always and unmistakably does, to their eventual permanent disease, is certainly very risky indeed. This is, however, a risk that many persons perceptibly drifting into Bright's disease, diabetes catarrh of the bladder, etc., constantly incur. So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diuretic, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than the efficacy for the prevention of serious renal diseases. The unmedicated excitants of commerce, no matter how pure, bear in mind, react prejudicially upon the kidneys when inactive. The Bitters subdues malaria, constipation and rheumatism.

HARVEST EXCURSIONS

Will be run by the Chicago & Northwestern Railway to points in Iowa, Minnesota, Dakota (including the Black Hills), Nebraska, Wyoming, Colorado Utah, Idaho and Montana, for which tickets will be sold August 6th and 20th September 10th and 24th and October 8th at half the usual rates, one fare for the round trip. These excursions will enable those desirous of locating on free government land or of purchasing cheap railroad lands to look the ground over carefully and judge for themselves of the rapid development of the country and the wonderful fertility of the soil. For full information regarding rates, tickets, etc., apply to any Agent of the Chicago, & Northwestern Railway.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. THE preparations used by barbers are not more vile than much of the soap used for washing the head and hair. Rank with powerful chemicals or with an excess of alkali, they draw the natural oil from the hair, causing decay and baldness. The Ivory Soap, as Prof. Cornwall, of Princeton, says, "Is very well made. The alkali is so thoroughly combined, it can not injure any thing." Insist upon your barber using only Ivory Soap and water when he gives you a shampoo.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

DRUNKENNESS

Or the Liquor Habit, Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea or in articles of food, without the knowledge of the patient; it is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. IT NEVER FAILS. Over 100,000 drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. 48 page book of particulars free.

SECOND POINT

You should read THE CHICAGO DAILY NEWS because *you have the time to read it*. There is a paper published in Australia which is as large as a blanket. This wouldn't suit you. You want a newspaper at once convenient, complete and condensed, and still you don't want to overlook anything of real importance. You don't want your neighbor to say to you, "Did you read so-and-so in to-day's paper? and be obliged to answer, "No, I didn't see that," and then have him ask you, "What paper do you read?" This will never happen to you if you read THE CHICAGO DAILY NEWS.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day.*

TO MONTANA, OREGON AND WASHINGTON.

If you are going west bear in mind the following facts: The Northern Pacific Railroad owns and operates 987 miles, or 57 per cent. of the entire railroad mileage of Montana; spans the territory with its main lines from east to west; is the short line to Helena; the only Pullman and dining car line to Butte, and is the only line that reaches Miles City, Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, nine-tenths of the cities and points of interest in the territory.

The Northern Pacific owns and operates 621 miles or 56 per cent of the railroad mileage of Washington, its main line extending from the Idaho line via Spokane Falls, Cheney, Sprague, Yakima and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacoma to Portland. No other transcontinental through rail line reaches any portion of Washington Territory. Ten days stop over privileges are given on Northern Pacific second class tickets at Spokane Falls and all points west, thus affording intending settlers an excellent opportunity to see the entire territory without incurring the expense of paying local fares from point to point.

The Northern Pacific is the shortest route from St. Paul to Tacoma by 207 miles; to Seattle by 177 miles, and to Portland by 324 miles—time correspondingly shorter, varying from one to two days, according to destination. No other line from St. Paul or Minneapolis runs through passenger cars of any kind into Idaho, Oregon or Washington.

In addition to being the only rail lin to Spokane Falls, Tacoma and Seattle, the Northern Pacific reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon and Washington. Bear in mind that the Northern Pacific and Shasta line is the scenic route to all points in California.

Send for illustrated pamphlets, maps, and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington Territory, and enclose stamps for the new 1889 Rand McNally County map of Washington Territory, printed in colors.

Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal toilet use. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the

Efficacy

of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color."—(Rev.) S. S. Sims, Pastor U. B. Church, St. Bernice, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of tetter. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color, *and firmly set.*"—J. H. Pratt, Spofford, Texas.

Is Consumption Incurable?

Read the following; Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made,"

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles. Was given up by doctors. Am now in the best of health." Try it. Sample bottles free at F. Sherer & Co's drugstore.

STREETS PAVED WITH JASPER.

The Hardest Stone in the Country Utilized in Many Ways.

Within two years the jasper industry has been developed, says a Dakota letter, and there are now four quarries, employing nearly 1,000 men, in operation about Sioux Falls. The market extends from Chicago to Kansas City. Sioux Falls' streets are paved with jasper, and her four-story buildings are constructed of it. The stone is susceptible of a high degree of polish, and when finished it looks much like the red granite of Missouri. The pioneers in the jasper industry discovered not long ago that the dust of the jasper, which is half as hard as diamonds, would polish the famous petrified wood of Arizona, and make of it table tops and ornaments more beautiful than agate or onyx. The petrified wood is now brought from Arizona to Sioux Falls by the car-load, and cut and polished in a variety of forms To her jasper industry the city has added the manufacture of Chalcedony. If these enterprising people do not find all of the precious things mentioned in the Book of Revelations it will not be for the want of searching.

There is a scientific mystery about this so-called jasper. Practically it is all right—its utility has been established—but geologically there is no little uncertainty about it. Those who know the most are the least positive in discussing its character. Some of the scientific men who have looked at it call it a red quartzite. Prof. Winchell says it is the hardest stone in the United States that has been used for building purposes. The grain is very close. The only element to which it secumbs is fire. It will stand a good degree but crumbles like limestone and soapstone under too intense heat. In the last day, when all the elements melt with fervent heat, the Sioux Falls jasper will have to go.

Vigor and Vitality

Are quickly given to every part of the body by Hood's Sarsaparilla. That tried feeling is entirely overcome. The blood is purified, enriched, and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidney and liver is aroused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

Strawberries on Toast.

An ex-officer of the British army, who has spent many years in India and Africa, came to New York recently, and is striving hard to learn how people in that city acts. He finds a great deal to amuse him in the way food is served in the restaurants, and his friends usually enjoy a hearty laugh when he takes dinner with them, as he seldom fails to see something about which to make some quaint remark in expressing his astonishment. A few days ago this loyal Briton was, as usual, eating dinner, enlarging upon the superiority of things English as compared with what he had seen here, when, the more substantial viands having been consumed, one of the party ordered strawberry shortcake for dessert. The waiter filled the order about as promptly as is usual in downtown restaurants, and the Captain viewed the dish with surprise. He seemed unable to comprehend it at first, but before the delicacy had been eaten he seemed to have solved the problem. Then he surprised those around him by exclaiming: "By Jove! that must be nice! Strawberries on toast is a queer dish, though."

Sport for the Monkey.

A slim, eye-glassed, crimson-sashed dude had an unlucky experience at the Zoo yesterday, says the Philadelphia Record. He was in the monkey-house. A dear girl was clinging trembling to his coat-sleeve, and both were engaged in the innocent amusement of administering peanuts to a group of Darwinian theorists. There was one monkey, unfortunately, whose tastes were rather esthetic than epicurean, and it took him but a moment to size up the flamboyant waistband. In a second the monkey had the sash and was scrambling to the roof of the cage.

The youth gave a horrible shout, the maid shrank in terror, but Jocko was cool and collected. He amused himself the rest of the afternoon by chewing silken rags and pelting his brethren with the quids.

Advice to Mothers.

MRS WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain cures wind colic, and is the best remedy for diarrhoea. 25c a bottle.

HARVEST EXCURSIONS.

The Chicago, Milwaukee & St. Paul railway company have made arrangements for several harvest excursions through the far west. The fare on these excursions will be one fare for the round trip. Tickets will be sold on August 6th and 20th, September 10th and 24th and October 8th, good for thirty days from date of sale, stop over privileges to be granted at any point west of the Mississippi river. These excursions will reach points in western Minnesota, Dakota, Iowa, Montana, Nebraska Colorado, Arkansas, Texas, Indian Territory, New Mexico, Arizona and Idaho. This affords our people an excellent opportunity to visit these states and territories at a small expense.

Hay Fever sufferers ought to know of its efficacy. Ely's Cream Balm was recommended to me as a preventive to hay fever. Have been using it since the 9th of August and have found it a specific for that much dreaded disease. For ten years I have been a great sufferer from August 9th till frost and have tried many alleged remedies, but Ely's Cream Balm is the only preventive I have ever found.—F. B. Ainsworth, publisher, Indianapolis, Ind.

Very Risky Indeed.

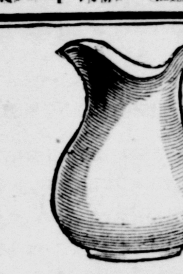

To tamper with symptoms indicative of growing kidney disorder; to neglect for a brief time needful stimulation of the renal organs when their inactivity points, as it always and unmistakably does, to their eventual permanent disease, is certainly very risky indeed. This is, however, a risk that many persons perceptibly drifting into Bright's disease, diabetes catarrh of the bladder, etc., constantly incur. So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diuretic, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than the efficacy for the prevention of serious renal diseases. The unmedicated excitants of commerce, no matter how pure, bear in mind, react prejudicially upon the kidneys when inactive. The Bitters subdues malaria, constipation and rheumatism.

HARVEST EXCURSIONS

Will be run by the Chicago & Northwestern Railway to points in Iowa, Minnesota, Dakota (including the Black Hills), Nebraska, Wyoming, Colorado Utah, Idaho and Montana, for which tickets will be sold August 6th and 20th September 10th and 24th and October 8th at half the usual rates, one fare for the round trip. These excursions will enable those desirous of locating on free government land or of purchasing cheap railroad lands to look the ground over carefully and judge for themselves of the rapid development of the country and the wonderful fertility of the soil. For full information regarding rates, tickets, etc., apply to any Agent of the Chicago, & Northwestern Railway.

THE preparations used by barbers are not more vile than much of the soap used for washing the head and hair. Rank with powerful chemicals or with an excess of alkali, they draw the natural oil from the hair, causing decay and baldness. The Ivory Soap, as Prof. Cornwall, of Princeton, says, "Is very well made. The alkali is so thoroughly combined, it can not injure any thing." Insist upon your barber using only Ivory Soap and water when he gives you a shampoo.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

DRUNKENNESS

Or the Liquor Habit, Positively Cured by administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea or in articles of food, without the knowledge of the patient; it is absolutely harmless, and will effect a permanent and speedy cure, whether the patient is a moderate drinker or an alcoholic wreck. IT NEVER FAILS. Over 100,000 drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge, and to-day believe they quit drinking of their own free will. 48 page book of particulars free.

SECOND POINT

You should read THE CHICAGO DAILY NEWS because *you have the time to read it*. There is a paper published in Australia which is as large as a blanket. This wouldn't suit you. You want a newspaper at once convenient, complete and condensed, and still you don't want to overlook anything of real importance. You don't want your neighbor to say to you, "Did you read so-and-so in to-day's paper? and be obliged to answer, "No, I didn't see that," and then have him ask you, "What paper do you read?" This will never happen to you if you read THE CHICAGO DAILY NEWS.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day.*

TO MONTANA, OREGON AND WASHINGTON.

If you are going west bear in mind the following facts: The Northern Pacific Railroad owns and operates 987 miles, or 57 per cent. of the entire railroad mileage of Montana; spans the territory with its main lines from east to west; is the short line to Helena; the only Pullman and dining car line to Butte, and is the only line that reaches Miles City, Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, nine-tenths of the cities and points of interest in the territory.

The Northern Pacific owns and operates 621 miles or 56 per cent of the railroad mileage of Washington, its main line extending from the Idaho line via Spokane Falls, Cheney, Sprague, Yakima and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacoma to Portland. No other transcontinental through rail line reaches any portion of Washington Territory. Ten days stop over privileges are given on Northern Pacific second class tickets at Spokane Falls and all points west, thus affording intending settlers an excellent opportunity to see the entire territory without incurring the expense of paying local fares from point to point.

The Northern Pacific is the shortest route from St. Paul to Tacoma by 207 miles; to Seattle by 177 miles, and to Portland by 324 miles—time correspondingly shorter, varying from one to two days, according to destination. No other line from St. Paul or Minneapolis runs through passenger cars of any kind into Idaho, Oregon or Washington.

In addition to being the only rail line to Spokane Falls, Tacoma and Seattle, the Northern Pacific reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon and Washington. Bear in mind that the Northern Pacific and Shasta line is the scenic route to all points in California.

Send for illustrated pamphlets, maps, and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington, Territory, and enclose stamps for the new 1889 Rand McNally County map of Washington Territory, printed in colors.

Dress the Hair

With Ayer's Hair Vigor. Its cleanliness, beneficial effects on the scalp, and lasting perfume commend it for universal toilet use. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used Ayer's Hair Vigor with entire success. I cheerfully testify to the

Efficacy

of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared and my hair resumed its original color."—(Rev.) S. S. Sims, Pastor U. B. Church, St. Bernice, Ind.

"A few years ago I suffered the entire loss of my hair from the effects of tetter. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head, and grew to be as soft and heavy as I ever had, and of a natural color, *and firmly set.*"—J. H. Pratt, Spofford, Texas.

Is Consumption Incurable?

Read the following; Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles. Was given up by doctors. Am now in the best of health." Try it. Sample bottles free at F. Sherer & Co's drugstore.

STREETS PAVED WITH JASPER.

The Hardest Stone in the Country Utilized in Many Ways.

Within two years the jasper industry has been developed, says a Dakota letter, and there are now four quarries, employing nearly 1,000 men, in operation about Sioux Falls. The market extends from Chicago to Kansas City. Sioux Falls' streets are paved with jasper, and her four-story buildings are constructed of it. The stone is susceptible of a high degree of polish, and when finished it looks much like the red granite of Missouri. The pioneers in the jasper industry discovered not long ago that the dust of the jasper, which is half as hard as diamonds, would polish the famous petrified wood of Arizona, and make of it table tops and ornaments more beautiful than agate or onyx. The petrified wood is now brought from Arizona to Sioux Falls by the car-load, and cut and polished in a variety of forms. To her jasper industry the city has added the manufacture of Chalcedony. If these enterprising people do not find all of the precious things mentioned in the Book of Revelations it will not be for the want of searching.

There is a scientific mystery about this so-called jasper. Practically it is all right—its utility has been established—but geologically there is no little uncertainty about it. Those who know the most are the least positive in discussing its character. Some of the scientific men who have looked at it call it a red quartzite. Prof. Winchell says it is the hardest stone in the United States that has been used for building purposes. The grain is very close. The only element to which it succumbs is fire. It will stand a good degree but crumbles like limestone and soapstone under too intense heat. In the last day, when all the elements melt with fervent heat, the Sioux Falls jasper will have to go.

Vigor and Vitality

Are quickly given to every part of the body by Hood's Sarsaparilla. That tried feeling is entirely overcome. The blood is purified, enriched; and vitalized, and carries health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidney and liver is aroused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

Strawberries on Toast.

An ex-officer of the British army, who has spent many years in India and Africa, came to New York recently, and is striving hard to learn how people in that city acts. He finds a great deal to amuse him in the way food is served in the restaurants, and his friends usually enjoy a hearty laugh when he takes dinner with them, as he seldom fails to see something about which to make some quaint remark in expressing his astonishment. A few days ago this loyal Briton was, as usual, eating dinner, enlarging upon the superiority of things English as compared with what he had seen here, when, the more substantial viands having been consumed, one of the party ordered strawberry shortcake for dessert. The waiter filled the order about as promptly as is usual in downtown restaurants, and the Captain viewed the dish with surprise. He seemed unable to comprehend it at first, but before the delicacy had been eaten he seemed to have solved the problem. Then he surprised those around him by exclaiming: "By Jove! that must be nice! Strawberries on toast is a queer dish, though."

Sport for the Monkey.

A slim, eye-glassed, crimson-sashed dude had an unlucky experience at the Zoo yesterday, says the Philadelphia Record. He was in the monkey-house. A dear girl was clinging trembling to his coat-sleeve, and both were engaged in the innocent amusement of administering peanuts to a group of Darwinian theorists. There was one monkey, unfortunately, whose tastes were rather esthetic than epicurean, and it took him but a moment to size up the flamboyant waistband. In a second the monkey had the sash and was scrambling to the roof of the cage.

The youth gave a horrible shout, the maid shrank in terror, but Jocko was cool and collected. He amused himself the rest of the afternoon by chewing silken rags and pelting his brethren with the quids.

HARVEST EXCURSIONS.

The Chicago, Milwaukee & St. Paul railway company have made arrangements for several harvest excursions through the far west. The fare on these excursions will be one fare for the round trip. Tickets will be sold on August 6th and 20th, September 10th and 24th and October 8th, good for thirty days from date of sale, stop over privileges to be granted at any point west of the Mississippi river. These excursions will reach points in western Minnesota, Dakota, Iowa, Montana, Nebraska Colorado, Arkansas, Texas, Indian Territory, New Mexico, Arizona and Idaho. This affords our people an excellent opportunity to visit these states and territories at a small expense.

Hay Fever sufferers ought to know of its efficacy. Ely's Cream Balm was recommended to me as a preventive to hay fever. Have been using it since the 9th of August and have found it a specific for that much dreaded disease. For ten years I have been a great sufferer from August 9th till frost, and have tried many alleged remedies, but Ely's Cream Balm is the only preventive I have ever found.—F. B. Ainsworth, publisher, Indianapolis, Ind.

Very Risky Indeed.

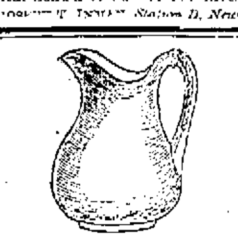

To tamper with symptoms indicative of growing kidney disorder; to neglect for a brief time needful stimulation of the renal organs when their inactivity points, as it always and unmistakably does, to their eventual permanent disease, is certainly very risky indeed. This is, however, a risk that many persons perceptibly drifting into Bright's disease, diabetes catarrh of the bladder, etc., constantly incur. So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diuretic, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than the efficacy for the prevention of serious renal diseases. The unmedicated excitants of commerce, no matter how pure, bear in mind, react prejudicially upon the kidneys when inactive. The Bitters subdues malaria, constipation and rheumatism.

HARVEST EXCURSIONS

Will be run by the Chicago & Northwestern Railway to points in Iowa, Minnesota, Dakota (including the Black Hills), Nebraska, Wyoming, Colorado Utah, Idaho and Montana, for which tickets will be sold August 6th and 20th September 10th and 24th and October 8th at half the usual rates, one fare for the round trip. These excursions will enable those desirous of locating on free government land or of purchasing cheap railroad lands to look the ground over carefully and judge for themselves of the rapid development of the country and the wonderful fertility of the soil. For full information regarding rates, tickets, etc., apply to any agent of the Chicago, & Northwestern Railway.

THE preparations used by barbers are not more vile than much of the soap used for washing the head and hair. Rank with powerful chemicals or with an excess of alkali, they draw the natural oil from the hair, causing decay and baldness. The Ivory Soap, as Prof. Cornwall, of Princeton, says, "Is very well made. The alkali is so thoroughly combined, it can not injure any thing." Insist upon your barber using only Ivory Soap and water when he gives you a shampoo.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

BRIEFLETS.

—The McGregor entertainment on Saturday evening.

—S. C. Burnham & Co. have a very pretty display of bead neck chains.

—The total receipts of the Racine fair are given at $4,720.26, and the expenses were $4,651.14.

—Janesville City Lodge No. 90, I. O. O. F., occupy Odd Fellows hall this evening—regular weekly meeting.

—Western Star Lodge No. 14, F. and A. M., assemble in regular semi-monthly communication this evening in Masonic hall.

—Oriental Lodge No. 22, Knights of Phytias, assemble in regular weekly meeting this evening—Castle hall, Jeffris block, West Milwaukee street.

—Major Whatmore, of the Salvation Army, spoke in the barracks in this city last night upon "The work of the army." Their statistical department reports an increase of 22 field officers, 27 local officers, 569 soldiers and 924 conversions in the United States alone. The major left this afternoon for Darlington.

—Factory Inspector J. C. Moore has inspected fifty-five principal places in Wisconsin, outside of Milwaukee, since March of this year. These cities represent 355,000 inhabitants, or about one-fifth of the total population of the state. The aggregate factory population of these cities is 35,453, equal to a trifle less than 10 per cent of the whole.

—The home of the junior member of the law firm of Nolan & Cunningham has for several days echoed the voice of a little baby boy, and John, the sire, is correspondingly happy, although he has been very tardy in allowing the fact to be announced until now. He receives congratulations with his usual good-natured smile.

—The Woman's Foreign Missionary Society of the First M. E. church will meet with Mrs. H G. Arnold, Chatham street, first ward, Wednesday afternoon at three o'clock. This is the time for opening the mite boxes and election of officers. Tea will be served at the usual hour and a good programme will be furnished afternoon and evening.

—Mr. and Mrs. Frank Sherer, Mr. and Mrs. James S. Fifield and Miss Kate Fifield, entertained a large company of young people last evening at the residence of Mr. and Mrs. E. G. Fifield North Jackson street. Dancing was one of the pleasant features of the evening's amusements, while sociability and good cheer held full sway throughout the home. Refreshment were served, and the company was one of real pleasure and enjoyment.

—The Gazette would respectfully invite the attention of all lovers of the unique and beautiful, to look at the corner case just finished by Mr. Francis Bell, and now on sale in Mr. O. F. Nowlan's office, No. 7, Court street. It was pronounced by Hayden Brother's agent, dealers in carved and fancy woods and furniture, Chicago, to be one of the finest pices of workmanship he ever examined. It is surrounded by a beautiful cornice of four different kinds of wood. The pillasters are of birdseye maple. The doors are made of ash with pannels of birdseye maple. The front of drawers are made of oak known as quarter oak with knobs of a maple root brought from New York over forty years ago, inlaid with orange wood. There are altogether five kinds of oaks, five of maple, California redwood, mahogany, orange wood and ash. The ash and oak were all taken from Forest Park in this city. Mr. Bell has been two years in completing this handsome piece of furniture.

A SERIOUS ACCIDENT.

H. W. COOPER, VETERINARY SURGEON OF THE BUCKLETON STOCK FARM, BADLY BURNED.

Last Thursday the Buckleton stock farm near this city was the scene of a very painful accident. It seems they manufacture their own gas, for the purpose of lighting the house, from gasoline, having for that purpose a pit some ten' feet deep, which contains a tank for holding the gasoline and gas generators. The employes of the farm were at the fair together with the man whose business it is to superintend the gas works. A German who was choring around the place, wishing to use the gas, attempted to do so, but it would not work; calling Mr. Cooper, who was doctoring a horse in the barn, and requesting him to fix the thing. Going down into the pit, Cooper found the gas escaping, wished to see one of the lower gauges. He struck a match on his clothing. He was instantly in a seathing flame. Scrambling up the ladder he was met by the German, who seized him by the arm and neck, throwing him upon the ground. In doing so he completely tore the skin and flesh from the right arm. Dr. Will Palmer was called, and dressed the burns. Dr. Cooper was seen by a Gazette reporter this morning, who found him doing as well as could be expected. He said he was quite lonesome, as some of his friends had seemingly not heard of his accident and would be very glad to see any who might call. The chances are that his arms will not be permanently crippled. Nearly his entire body is burned and scratched, yet strange to say his eyes are not injured in the least.

TO GO TO THE LEGISLATURE.

CATHOLICS DETERMINED TO PREVENT BIBLE READING IN THE PUBLIC SCHOOLS.

The legislature will be urged to pass a law prohibiting the reading of the bible in the public schools of the state, says the Milwaukee Wisconsin, in case the decision of the supreme court in the Edgerton suit is unfavorable to the Catholic side of the question.

"Milwaukee Catholics," said editor Bray, of the Catholic Citizen, this forenoon, "expect that the supreme court will rule that the reading of scripture in the public schools constitutes sectarian instruction. They are anxious to have such a decision rendered. If the decision be unfavorable, then the matter will be carried into the legislature, and the passage of a law prohibiting Bible reading in the public schools will be pressed as strongly as possible. I do not think it is true that any Catholic desires an adverse ruling by the supreme court, in the hope that such a decision would benefit the parochial schools. In Milwaukee the public school teachers do not read the Bible to their pupils, so that the decision could not make any difference here, so far as the parochial schools are concerned, and in the interior there are comparatively few towns where the Catholics have their own schools. Most Catholic children attend the public schools and the Catholics simply work to prevent the reading of the bible in the public schools."

The Edgerton case was to have been decided by the supreme court early in October, but has been continued, and no ruling will be made until the latter part of November.

AGRICULTURAL NOTES.

Scarcely any two cows are exactly alike in disposition and in the character and nature of their teats and udder, and the good milker will study his cow in order to know how to treat her.

The Country Gentleman says the practice of "hilling" potatoes during cultivation and growth is almost universal and in most instances is positively detrimental to productiveness, yet it is nearly impossible to convince the farmers of this fact.

Should cheese puff during curing it shows that the gas is generating too fast and the room has been too warm, says Farm, Stock and Home. The cheese thus puffed should be removed to a cooler place and, as a last resort, should be pricked to allow the gas to escape. A good cheese may be spoiled by not receiving good attention while curing.

Of the 4,200 kinds of flowers which grow in Europe only 420, or 10 per cent., are odoriferous. The commonest flowers are the white ones, of which there are 1,194 kinds. Less than one-fifth of these are fragrant. Of the 951 kinds of yellow flowers seventy-seven kinds are odoriferous; of the 823 red kinds, eighty-four; of the 594 blue kinds, thirty-one; of the 108 violet blue kinds, thirteen. Of the 200 kinds with combined colors twenty-eight are fragrant.

It has been noticed at the New York Experiment Station that the liability of potatoes to decay seemed to bear no relation to the vigor of the plant, the feeble plants often failing to furnish rotten tubers, while the more vigorous ones suffered badly. It also appears that decay does not always follow, though the following is severely blighted. This may come, however, from the blight not being in all cases the fungus which produces the potato rot.

Dairymen at the Kansas State Fair will be in clover this year. In addition to the liberal premiums offered by the Fair Association the following premiums are added: The American Short-horn Breeders' Association offers $250 as premium for the short-horn class for the production of milk and butter. The Holstein-Friesian Association of America offer two special premiums, aggregating $500, and gold medals valued at $100. The Hereford Cattle Breeders' association offer special prizes, aggregating $175, for the best display in this class.

A correspondent of the Germantown Telegraph says he has found salt a valuable remedy for the rust on blackberry vines, and concludes: "I have applied two or three handfuls on the surface of the ground immediately over the roots when the plants were badly rusted; in two or three weeks the disease had disappeared and the plants had made a good growth. I believe moderate application of salt, sown broadcast over a blackberry patch, would be of great benefit as a fertilizer and health renewer."

THE WILLARD HOMESTED

The Temperance Workers Seeking to Purchase it

FOR A SUMMER RESORT.

An Appeal from A Committee of the Local Woman's Christian Temperance Union.

The years of nearly a half a century have come and gone since Janesville first took its place as a town in this great commonwealth of ours. Through the energy and perseverance of good men and true, it has steadily grown from a few scattered houses to a city of fair proportion, and from its manufactories and other industries it is known abroad for its thrift and enterprise. While for all these years it has been necessary for its mutual growth to keep steadfastly to the spirit of money getting, it has now reached a period in its history when it can lay aside some of the cares in this direction, and reach out to a higher culture and a broader range of usefulness. We as a city can afford to take time and give our hearts, minds and strength to some of the great philanthropies that are agitating the world of to-day.

In our city's infancy there came a man with his family from the far east and made himself a home near by; he did much to advance the growth and prosperity of Janesville. To-day his eldest daughter, Miss Frances Willard, is one of the most distinguished women in the world, giving her heart, money and strength to the temperance cause. She is honored by all, both high and low, for this living sacrifice to the work of saving men. In her "Glimpse of Fifty Years," of which there has already been sold 20,000 copies, she honors Janesville as the home of her childhood, and to-day thousands of people are asking where is this city of which Miss Willard writes in such loving terms. Thus are the eyes and thoughts of the people, north, east, south and west directed to us, and all at once we take a prominence unthought of a year ago. Miss Willard has received the homage and love of an appreciative people in a thousand different cities, but with a loving loyalty she turns to the home of her childhood, when the question arises of "which city shall be honored by establishing a permanent home for the true and faithful workers in the temperance cause who are wearied and worn." We have given generously to advance educational interest in other cities, that they might take a high rank in their good work; now shall we stand indifferently with folded hands and let the National Temperance Union do this grand work alone? Here is an opportunity to do ourselves a credit, and honor a woman whom it should be our delight to honor. We cannot afford to take a position before the world verifying that old proverb which has so much of ingratitude and lack of appreciation, "That a prophet is not without honor save in his own country." It should be the pleasure of the people of Janesville and Rock county to raise the whole amount, $1,500, but if that is impossible, let us at least secure enough to show our interest in the good work. There is not in this goodly city a man or woman but could give one dollar and be blessed in the giving. This home here in our midst means a higher culture for us and our children; it means an aroused interest in this christian work. It will be such a power for good that we cannot estimate it. It will bring to us people whom it will be a delight to welcome to our homes; it will be an educator to the people whom we have urged by our manufactories to make their homes with us; we owe it to them to make our city an influence for good in all directions.

Will you as a citizen of our honored city, ponder in your heart, this great good that is offered to us and not let it pass, without showing your appreciation in a substantial manner. Who knows but that in the years to come our beautiful city shall stand as does Stratford-on-Avon in the hearts of the world, as the childhood of one of America's most distinguished woman.

It is impossible for the committee having the work in charge here to see all personally who would like to contribute to this noble cause, and the gift should come willingly, thus showing that we are glad to honor Miss Willard.

To those wishing to aid either by large or small sums, the amount could be sent through the mail with name attached, to Mrs. J. L. Ford,

A committee has been appointed by the National W. C. T. U. to co-operate with the Wisconsin W. C. T. U. in the work of raising the sum of $1,500, for the purpose of purchasing fifteen acres of the farm which was the childhood home of Miss Frances E. Willard, including the old house, still standing upon it, the same to be presented to the National W. C. T. U. as a summer resort for weary temperance workers. As the 50th anniversary of Miss Willard's birth occurs in November of the present year, that month is suggested as the best time for accomplishing this work. Mr. Baines, who owns the property, has kindly consented to hold the offer open for a few months and to contribute liberally himself toward its purchase. Miss Willard will also aid in the enterprise. The committee appointed consists of the following persons: Mrs. R. M. Bosworth, Miss Lizzie P. Little, Mrs. Anna P. Knox, Mrs. Louisa Ford, Mrs. C. A. Hunt, Mrs. Anna B. Hughes.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 45 degrees above zero. Clear with west wind. At one o'clock p. m. the register was 58 degrees above zero. Partly cloudy with west wind. For the corresponding hours one year ago the register was 52 and 54 degrees above zero.

Co., will sell excursion tickets to Chicago and return every Thursday from Sept. 5th to Oct. 10th, good to return until following Monday, $3.88 for round trip including ticket to exposition. Thursday, Sept. 19th and Oct. 10th fare will be $2.98 including ticket to exposition. Tickets good till the following Monday.

MATRIMONIAL.

SULLIVAN-DUNN.

This morning at eight o'clock at St. Patrick's church, the Very Rev. Father McGinnity united Mr. M. J. Sullivan and Miss Julia Dunn in the holy bonds of marriage. The Gazette recently mentioned the fact that the groom had accepted a position as traveling salesman for a Detroit tobacco house, but at that time was not informed of the partnership just consumated. Nevertheless the Gazette joins with the many friends of the bride and groom in extending heartiest congratulations, trusting that naught but happiness and prosperity may befall them.

GOLDEN WEDDING.

A golden wedding, being the fiftieth anniversary of the marriage of Mr. and Mrs. Jas. Kilmer, was celebrated at their residence in the town of Rock, four miles southwest of this city on Saturday September 14.

Mr. James Kilmer was born in Columbia county, New York, August 25th, 1805, being now in his eighty-fifth year. He was married March 4th, 1826 to Miss Catherine Snyder of the same place. The result of this union was four children: Mrs. Catherine Griffin, Mr. John Kilmer and Mrs. Jane Miller all of the town of Rock, and Mrs. Eleanor Griffin, of Spencer, Iowa. At the expiration of thirteen years, Mrs. Kilmer died, leaving him with four little children. September 14, 1839, he was united in marriage to Miss Helen Knickerbocker, who was born in Columbia county, in 1819, and is now in her seventieth year. They made their home in Scranton, Pennsylvania, where Mr. Kilmer was owner of many acres of valuable coal land Two children were born to them. Mrs. Harriet Mott, of Scranton, Penn, and Willie, who died in infancy. In 1860 Mr. Kilmer with his family, removed to Janesville and built a commodious residence on the farm where he now resides. The wedding was planned by children and grand children as a surprise to their grand parents and was a complete success. Of the children able to be present, were Mr. and Mrs. Jos. Griffin, Mr. and Mrs. Lyman Miller, and Mr. and Mrs. John Kilmer. Of the grand children there are twenty and of the great grand children thirty. Of that number about thirty-two were present. Of intimate friends, Mrs. Nelson Decker of Scranton, Pa., Mr. and Mrs. Charles Smith and daughter and Mrs. N. W. Tripp. After a short time spent in social chit chat all repaired to a spacious dining room where a bounteous repast was served. Two large tables were spread with fruit and other delacacies which serve to refresh the inner man. The remainder of the day was pleasantly spent and all departed for their homes feeling the occasion one long to be remembered, leaving behind as tokens of remembrance—to grandpa a pair gold bowed spectacles and to grandma a beautiful cabinet album, and wishing them many anniversaries of their wedding day, and that all their lives might be spared to celebrate the diamond wedding.

CAPTURED THE HORSE.

LIVERYMAN RYAN, OF MAIN STREET, RECOVERS HIS PROPERTY BUT DOES NOT FIND THE THIEVES.

Nearly a year ago two strangers went to Ryan Bros.' livery barn on Main street and hired a horse and buggy to go to Beloit. The one who engaged the rig represented himself as a nephew of J. A. Cunningham, of this city, superintendent of the Overall Company, and that he was going to work here. Mr. Cunningham being well known, Mr. Ryan let the rig go. One of the employes at the barn had his suspicions aroused, and inquiring of Mr. Cunningham found he knew nothing of his would be relative. The rig was stolen Marshal Hogan offered a reward of $50 for the recovery of the horse and buggy and $25 additional for the thief.

About a week after the theft the buggy was found near Aurora, Ill. The harness was in the buggy all right. Marshal Hogan learned from a gentleman that a horse was found last fall near Bensonville, Ill., answering the description of the one stolen from Ryan. Mr. Dan Ryan went to Bensonville and found his horse in possession of a German by the name of Koch, who demanded $150 for keeping, but finally took ten and gave the horse up to the owner. The horse is in good condition.

EMERALD GROVE.

—Mrs. Webster Millar, of Ft. Howard, Wis., is visiting her parents, Mr. and Mrs. Jas. Plantz, at this place.

—Remember the fruit social on Friday evening of this week in the church social rooms, instead of next week as appeared in last weeks' paper. Let all come and have a good time.

—Miss Cora Spear commenced on Monday her work as teacher in the grammar department of the graded school in Milton.

—Fall cream cheese at Gillies & Jones, 10c. per pound. Will be higher soon.

—Among the many prizes awarded by the Rock County Agricultural Society last week were: 1st on bread to Miss Edna Wright, aged 7 years; 1st on cake to her sister, Miss Edith Wright, aged 5 years. As there are some who doubt the ability of the two little girls, we take the liberty of stating that they may take either one of them home with them, furnish the material, and they will soon prove that the prizes were honestly won and merited.

—Mrs. Mary Jones and daughter Mattie are visiting in this place. Miss Mattie has for a long time occupied a position as clerk in the Chicago Store.

—The county fair was well attended by people from this neighborhood last week.

—B. Roy Cheney, who is attending school in Beloit, was home for a few days last week.

—Saturday evening of this week a meeting will be held in the school house at this place for the purpose of finding what support the farmers would give a butter and cheese factory if one would locate here. If enough milk can be obtained a factory is certain. Let all come out and express themselves and hear what is said by those who have tried it.

If you could see your own scalp through an ordinary magnifying glass, you would be amazed at the amount of dust, dandruff, and dead skin thereon accumulated. The best and most popular preparation for cleansing the scalp is Ayer's Hair Vigor.

With a feeble appetite and imperfect digestion, it is impossible for the body to secure the requisite amount of nourishment. Ayer's Sarsaparilla not only stimulates the desire for food, but aids the assimilative organs in the formation of good blood and sound tissue.

TOBACCO.

A FEW THINGS ABOUT ONE OF WISCONSIN'S BEST PAYING CROPS.

One of the largest dealers in leaf tobacco in this city was interviewed yesterday by a Gazette reporter with reference to the present crop of 1889, and the following are his estimates concerning it: A larger acreage was grown in Rock county this year than ever before. There is said to be over 2,000 acres more in the state this year, and Rock county has increased her acreage more in proportion than the other tobacco growing districts. The season has been very favorable both for setting, cultivating and harvesting; in fact, it has been earlier from the start and now over three-fourths of the present crop is in the shed in fine condition. This week will see it all or nearly all under cover. This weather is all that can be asked for curing tobacco. Tobacco is raised each year with less labor, and risks, and for a man with a farm it is a paying investment.

Very little of the old crop is in the hands of the producers. This, with the fact that great quantities of tobacco have been exported, insures the producer a fair price for the large crop this year.

Wisconsin tobacco is purely leaf, and ranks in the market next to Connecticut grown tobacco. Nearly all the tobacco now grown in Wisconsin is used for binders, as the light tissue like Sumatra leaf has completely supplanted it for wrappers, thereby lowering its price.

One who owns his land and has other crops besides, can afford to grow from three to seven acres, and sell his crop in the bundle for six or seven cents a pound, but where men pay their board and depend simply on their tobacco for a living, it has not, it is said, for a term of years yielded a very large revenue; yet there has grown up a class of men all over this tobacco growing district whose only business is to raise a crop of tobacco on shares, and many of them have come to own the very land they began to rent.

NOVELTIES IN JEWELRY.

Included in the variety of hairpin beadings is a diamond and ruby edelweiss.

A novel idea in decorative tableware is a cut-glass bonbon dish shaped as a pear.

An attractive little trifle worth noticing is a match box formed wholly of heavy silver wire interwoven.

Chased gold crescents, adorned with enameled forget-me-nots, are another species of that favorite brooch pin.

Individual peppers are now on the market, fashioned as miniature cream pitchers, with closed and perforated tops.

The rage for fancy quarter clasps is again assuming extraordinary proportions. Mythological heads in relief are the latest craze.

White enamel daisies, with gold hearts strung on a slender gold wire, a diamond star occupying the center, is a bracelet of recent origin.

A brooch has been introduced that represents a horizontal bar of gold with opal ends, on which is seated an acrobat in a suit of varicolored enamel.

Across a white enameled imitation pad in a gold mount rests a tiny gold pencil, forming together an appropriate scarfpin for penny-a-liners.

Though so many silver toothpick stands have of late been introduced the newest creation in this direction, a miniature anvil, hollowed out, is the quaintest.

Hairpin tops, or rather the larger portion of them, are detachable, thus enabling their possessers to utilize them either for brooches or pendants.

Figuring among the newest creations in queen china pendants is a fac-simile in a gold harp. The entire frame it set closely with torquoises and pearls alternating.

A huge silver urn, etched with scenes of bacchanalian revelry and supported by four elephant heads, is a presentation loving cup displayed for the public edification.

An up-town retailer has exposed in his window a silver flask inlaid with red gold and green leaves. The work is so perfect as to create an impression that it is produced by closely woven gold wires.

A new device that is likely to make a name is a long silver vessel wherein are half a dozen spools of cotton. Each one is threaded through with a blue silk ribbon, fashioned at each end into a small bow. On these ribbons the spools revolve.

Something very unique in photo frames consists of polished mahogany posts holding between them a mother of pearl gate with a gold latch. "Please shut the gate," in raised gold letters above the doorway, gives additional effect to the design.

RELIGIOUS INTELLIGENCE.

Chan Chu Sing, a converted Chinaman, has been licensed as a local preacher in the Methodist Episcopal church.

There are thirty-five Chinese Sunday schools in New York and Brooklyn, and 135 Chinese Sunday schools and missions in the whole country, exclusive of California.

There are said to be nine anti-Christian papers published in the United States and Canada, with a combined circulation of 30,000. But a majority of them have a hard struggle to make both ends meet.

The Christian Advocate (Methodist) says: "That the Reformed Episcopal church is vastly more like what the Church of England was fifty or sixty years ago than the Protestant Episcopal church now is there can be no doubt."

The Paulist Fathers of New York will establish a "House of Studies" on the grounds of the Catholic university at Washington in October, and it is expected that other communities will follow the lead of the Paulists and cluster about the university.

The Czar of Russia sent the Archbishop of Cyprus a magnificent set of vestments, in recognition of his having officiated at the solemn mass performed at the Russian embassy in commemoration of the recent marriage in the imperial family.

This is a quotation from the Hebrew Standard: "When some of the 'pillars' of the Beth Hamedrash go to Coney island Sabbath and eat clams it either speaks volumes for the irresistibility of Coney island and clams or the inconsistency of the aforesaid pillars."

The Austrian archbishops are probably the most highly paid in the world. The cardinal archbishop of Vienna has only about £20,000 a year, but the cardinal archbishop of Olmutz has £40,000, the cardinal archbishop of Prague has £35,000, and the archbishop of Erlau has £60,000. And the primate of Hungary, the cardinal archbishop of Gran, has £80,000.

A novel method of raising funds has been tried by a Sunday school in Burlington, N. J. Some time ago 250 new 5-cent pieces, called "talents," were distributed among the scholars and teachers, with instructions to do whatever in reason they could to increase the sum. When the talents were all called in, notwithstanding all the scholars did not make returns, the sum received was $537.

REMEMBER THAT

A stone, used by grocers, is equal to fourteen pounds.

It takes from 1½ to 2 bushels of wheat to sow one acre of ground.

To find the amount of hay in a mow allow 512 cubic feet for a ton.

A box 16 inches square and 8 2-3 inches deep will contain one bushel.

A cord of stone, three bushels of lime, and a cubic yard of sand will lay 100 cubic feet of wall.

One cent saved each day and put out at 6 per cent interest will accumulate to $950 in fifty years.

A thousand laths will cover seventy yards of surface, and 11 pounds of lath nails will nail them on.

Eight bushels of good lime, 16 bushels of sand, and 1 bushel of hair will make enough good mortar to plaster 100 yards.

CELEBRATED DWARFS.

Admiral Dot's height was a trifle over 2 feet.

Gen. Mite weighs 10 pounds and is 24 inches high.

Minnie Osborn at 30 years of age was but 23 inches high.

Dollie Dutton weighed at her birth 2½ pounds; at her death 13 pounds.

Sato Yukichis is said to be over 50 years of age and 1 foot and 3 inches tall.

Mrs. Louisa Shepard at the time of her death was 31 inches high and weighed 80 pounds.

The remarkable Chinese dwarf, Chemah, is now 50 years old, while his height is just 25 inches.

John de Estrix of Mechlin, who lived in 1592, at 35 years of age had a long beard and was but 3 feet in height.

Refreshment were served, and the company was one of real pleasure and enjoyment–

—The Gazette would respectfully invite the attention of all lovers of the unique and beautiful, to look at the corner case just finished by Mr. Francis Bell, and now on sale in Mr. O. F. Nowlan's office, No. 7, Court street. It was pronounced by Hayden Brother's agent, dealers in carved and fancy woods and furniture, Chicago, to be one of the finest pices of workmanship he ever examined. It is surrounded by a beautiful cornice of four different kinds of wood. The pillasters are of birdseye maple. The doors are made of ash with pannels of birdseye maple. The front of drawers are made of oak known as quarter oak with knobs of a maple root brought from New York over forty years ago, inlaid with orange wood. There are altogether five kinds of oaks, five of maple, California redwood, mahogany, orange wood and ash. The ash and oak were all taken from Forest Park in this city. Mr. Bell has been two years in completing this handsome piece of furniture.

A SERIOUS ACCIDENT.

H. W. COOPER, VETERINARY SURGEON OF THE BUCKLETON STOCK FARM, BADLY BURNED.

Last Thursday the Buckleton stock farm near this city was the scene of a very painful accident. It seems they manufacture their own gas, for the purpose of lighting the house, from gasoline, having for that purpose a pit some ten feet deep, which contains a tank for holding the gasoline and gas generators. The employes of the farm were at the fair together with the man whose business it is to superintend the gas works. A German who was choring around the place, wishing to use the gas, attempted to do so, but it would not work; calling Mr. Cooper, who was doctoring a horse in the barn, and requesting him to fix the the thing. Going down into the pit, Cooper found the gas escaping, wished to see one of the lower gauges. He struck a match on his clothing. He was instantly in a seathing flame. Scrambling up the ladder he was met by the German, who seized him by the arm and neck, throwing him upon the ground. In doing so he completely tore the skin and flesh from the right arm. Dr. Will Palmer was called, and dressed the burns. Dr. Cooper was seen by a Gazette reporter this morning, who found him doing as well as could be expected. He said he was quite lonesome, as some of his friends had seemingly not heard of his accident and would be very glad to see any who might call. The chances are that his arms will not be permanently crippled. Nearly his entire body is burned and scratched, yet strange to say his eyes are not injured in the least.

TO GO TO THE LEGISLATURE.

CATHOLICS DETERMINED TO PREVENT BIBLE READING IN THE PUBLIC SCHOOLS.

The legislature will be urged to pass a law prohibiting the reading of the bible in the public schools of the state, says the Milwaukee Wisconsin, in case the decision of the supreme court in the Edgerton suit is unfavorable to the Catholic side of the question.

"Milwaukee Catholics," said editor Bray, of the Catholic Citizen, this forenoon, "expect that the supreme court will rule that the reading of scripture in the public schools constitutes sectarian instruction. They are anxious to have such a decision rendered. If the decision be unfavorable, then the matter will be carried into the legislature, and the passage of a law prohibiting Bible reading in the public schools will be pressed as strongly as possible. I do not think it is true that any Catholic desires an adverse ruling by the supreme court, in the hope that such a decision would benefit the parochial schools. In Milwaukee the public school teachers do not read the Bible to their pupils, so that the decision could not make any difference here, so far as the parochial schools are concerned, and in the interior there are comparatively few towns where the Catholics have their own schools. Most Catholic children attend the public schools and the Catholics simply work to prevent the reading of the bible in the public schools."

The Edgerton case was to have been decided by the supreme court early in October, but has been continued, and no ruling will be made until the latter part of November.

AGRICULTURAL NOTES.

Scarcely any two cows are exactly alike in disposition and in the character and nature of their teats and udder, and the good milker will study his cow in order to know how to treat her.

The Country Gentleman says the practice of "hilling" potatoes during cultivation and growth is almost universal and in most instances is positively detrimental to productiveness, yet it is nearly impossible to convince the farmers of this fact.

Should cheese puff during curing it shows that the gas is generating too fast and the room has been too warm, says Farm, Stock and Home. The cheese thus puffed should be removed to a cooler place and, as a last resort, should be pricked to allow the gas to escape. A good cheese may be spoiled by not receiving good attention while curing.

Of the 4,200 kinds of flowers which grow in Europe only 420, or 10 per cent., are odoriferous. The commonest flowers are the white ones, of which there are 1,194 kinds. Less than one-fifth of these are fragrant. Of the 951 kinds of yellow flowers seventy-seven kinds are odoriferous; of the 823 red kinds, eighty-four; of the 594 blue kinds, thirty-one; of the 108 violet blue kinds, thirteen. Of the 200 kinds with combined colors twenty-eight are fragrant.

It has been noticed at the New York Experiment Station that the liability of potatoes to decay seemed to bear no relation to the vigor of the plant, the feeble plants often failing to furnish rotten tubers, while the more vigorous ones suffered badly. It also appears that decay does not always follow, though the following is severely blighted. This may come, however, from the blight not being in all cases the fungus which produces the potato rot.

Dairymen at the Kansas State Fair will be in clover this year. In addition to the liberal premiums offered by the Fair Association the following premiums are added: The American Short-horn Breeders' Association offers $250 as premium for the short-horn class for the production of milk and butter. The Holstein-Friesian Association of America offer two special premiums, aggregating $300, and gold medals valued at $100. The Hereford Cattle Breeders' association offer special prizes, aggregating $175, for the best display in this class.

A correspondent of the Germantown Telegraph says he has found salt a valuable remedy for the rust on blackberry vines, and concludes: "I have applied two or three handfuls on the surface of the ground immediately over the roots when the plants were badly rusted; in two or three weeks the disease had disappeared and the plants had made a good growth. I believe moderate application of salt, sown broadcast over a blackberry patch, would be of great benefit as a fertilizer and health renewer."

THE WILLARD HOMESTED

The Temperance Workers Seeking to Purchase it

FOR A SUMMER RESORT.

An Appeal from A Committee of the Local Woman's Christian Temperance Union.

The years of nearly a half a century have come and gone since Janesville first took its place as a town in this great commonwealth of ours. Through the energy and perseverance of good men and true, it has steadily grown from a few scattered houses to a city of fair proportion, and from its manufactories and other industries it is known abroad for its thrift and enterprise. While for all these years it has been necessary for its mutual growth to keep steadfastly to the spirit of money getting, it has now reached a period in its history when it can lay aside some of the cares in this direction, and reach out to a higher culture and a broader range of usefulness. We as a city can afford to take time and give our hearts, minds and strength to some of the great philanthropies that are agitating the world of to-day.

In our city's infancy there came a man with his family from the far east and made himself a home near by; he did much to advance the growth and prosperity of Janesville. To-day his eldest daughter, Miss Frances Willard, is one of the most distinguished women in the world, giving her heart, money and strength to the temperance cause. She is honored by all, both high and low, for this living sacrifice to the work of saving men. In her "Glimpse of Fifty Years," of which there has already been sold 20,000 copies, she honors Janesville as the home of her childhood, and to-day thousands of people are asking where is this city of which Miss Willard writes in such loving terms. Thus are the eyes and thoughts of the people, north, east, south and west directed to us, and all at once we take a prominence unthought of a year ago. Miss Willard has received the homage and love of an appreciative people in a thousand different cities, but with a loving loyalty she turns to the home of her childhood, when the question arises of "which city shall be honored by establishing a permanent home for the true and faithful workers in the temperance cause who are wearied and worn." We have given generously to advance educational interest in other cities, that they might take a high rank in their good work; now shall we stand indifferently with folded hands and let the National Temperance Union do this grand work alone? Here is an opportunity to do ourselves a credit, and honor a women whom it should be our delight to honor. We cannot afford to take a position before the world verifying that old proverb which has so much of ingratitude and lack of appreciation, "That a prophet is not without honor save in his own country." It should be the pleasure of the people of Janesville and Rock county to raise the whole amount, $1,500, but if that is impossible, let us at least secure enough to show our interest in the good work. There is not in this goodly city a man or woman but could give one dollar and be blessed in the giving. This home here in our midst means a higher culture for us and our children; it means an aroused interest in this christian work. It will be such a power for good that we cannot estimate it. It will bring to us people whom it will be a delight to welcome to our homes; it will be an educator to the people whom we have urged by our manufactories to make their homes with us; we owe it to them to make our city an influence for good in all directions.

Will you as a citizen of our honored city, ponder in your heart, this great good that is offered to us and not let it pass, without showing your appreciation in a substantial manner. Who knows but that in the years to come our beautiful city shall stand as does Stratford-on-Avon in the hearts of the world, as the childhood of one of America's most distinguished woman.

It is impossible for the committee having the work in charge here to see all personally who would like to contribute to this noble cause, and the gift should come willingly, thus showing that we are glad to honor Miss Willard.

To those wishing to aid either by large or small sums, the amount could be sent through the mail with name attached, to Mrs. J. L. Ford,

A committee has been appointed by the National W. C. T. U. to co-operate with the Wisconsin W. C. T. U. in the work of raising the sum of $1,500, for the purpose of purchasing fifteen acres of the farm which was the childhood home of Miss Frances E. Willard, including the old house, still standing upon it, the same to be presented to the National W. C. T. U. as a summer resort for weary temperance workers. As the 50th anniversary of Miss Willard's birth occurs in November of the present year, that month is suggested as the best time for accomplishing this work. Mr. Baines, who owns the property, has kindly consented to hold the offer open for a few months and to contribute liberally himself toward its purchase. Miss Willard will also aid in the enterprise. The committee appointed consists of the following persons: Mrs. R. M. Bosworth, Miss Lizzie P. Little, Mrs. Anna P. Knox, Mrs. Louisa Ford, Mrs. C. A. Hunt, Mrs. Anna B. Hughes.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 45 degrees above zero. Clear with west wind. At one o'clock p. m. the register was 58 degrees above zero. Partly cloudy with west wind. For the corresponding hours one year ago the register was 52 and 54 degrees above zero.

MATRIMONIAL.

SULLIVAN-DUNN.

This morning at eight o'clock at St. Patrick's church, the Very Rev. Father McGinnity united Mr. M. J. Sullivan and Miss Julia Dunn in the holy bonds of marriage. The Gazette recently mentioned the fact that the groom had accepted a position as traveling salesman for a Detroit tobacco house, but at that time was not informed of the partnership just consumated. Nevertheless the Gazette joins with the many friends of the bride and groom in extending heartiest congratulations, trusting that naught but happiness and prosperity may befall them.

GOLDEN WEDDING.

A golden wedding, being the fiftieth anniversary of the marriage of Mr. and Mrs. Jas. Kilmer, was celebrated at their residence in the town of Rock, four miles southwest of this city on Saturday September 14.

Mr. James Kilmer was born in Columbia county, New York, August 25th, 1805, being now in his eighty-fifth year. He was married March 4th, 1826 to Miss Catherine Snyder of the same place. The result of this union was four children: Mrs. Catherine Griffin, Mr. John Kilmer and Mrs. Jane Miller all of the town of Rock, and Mrs. Eleanor Griffin, of Spencer, Iowa. At the expiration of thirteen years, Mrs. Kilmer died, leaving him with four little children. September 14, 1839, he was united in marriage to Miss Helen Knickerbocker, who was born in Columbia county, in 1819, and is now in her seventieth year. They made their home in Scranton, Pennsylvania, where Mr. Kilmer was owner of many acres of valuable coal land Two children were born to them. Mrs. Harriet Mott, of Scranton, Penn, and Willie, who died in infancy. In 1860 Mr. Kilmer with his family, removed to Janesville and built a commodious residence on the farm where he now resides. The wedding was planned by children and grand children as a surprise to their grand parents and was a complete success. Of the children able to be present, were Mr. and Mrs. Jos. Griffin, Mr. and Mrs. Lyman Miller, and Mr. and Mrs. John Kilmer. Of the grand children there are twenty and of the great grand children thirty. Of that number about thirty-two were present. Of intimate friends, Mrs. Nelson Decker of Scranton, Pa., Mr. and Mrs. Charles Smith and daughter and Mrs. N. W. Tripp. After a short time spent in social chit chat all repaired to a spacious dining room where a bounteous repast was served. Two large tables were spread with fruit and other delacacies which serve to refresh the inner man. The remainder of the day was pleasantly spent and all departed for their homes feeling the occasion one long to be remembered, leaving behind as tokens of remembrance—to grandpa a pair gold bowed spectacles and to grandma a beautiful cabinet album, and wishing them many anniversaries of their wedding day, and that all their lives might be spared to celebrate the diamond wedding.

CAPTURED THE HORSE.

LIVERYMAN RYAN, OF MAIN STREET, RECOVERS HIS PROPERTY BUT DOES NOT FIND THE THIEVES.

Nearly a year ago two strangers went to Ryan Bros.' livery barn on Main street and hired a horse and buggy to go to Beloit. The one who engaged the rig represented himself as a nephew of J. A. Cunningham, of this city, superintendent of the Overall Company, and that he was going to work here. Mr. Cunningham being well known, Mr. Ryan let the rig go. One of the employes at the barn had his suspicions aroused, and inquiring of Mr. Cunningham found he knew nothing of his would be relative. The rig was stolen Marshal Hogan offered a reward of $50 for the recovery of the horse and buggy and $25 additional for the thief.

About a week after the theft the buggy was found near Aurora, Ill. The harness was in the buggy all right. Marshal Hogan learned from a gentleman that a horse was found last fall near Bensonville, Ill., answering the description of the one stolen from Ryan. Mr. Dan Ryan went to Bensonville and found his horse in possession of a German by the name of Koch, who demanded $150 for keeping, but finally took ten and gave the horse up to the owner. The horse is in good condition.

EMERALD GROVE.

—Mrs. Webster Millar, of Ft. Howard, Wis., is visiting her parents, Mr. and Mrs. Jas. Plantz, at this place.

—Remember the fruit social on Friday evening of this week in the church social rooms, instead of next week as appeared in last weeks' paper. Let all come and have a good time.

—Miss Cora Spear commenced on Monday her work as teacher in the grammar department of the graded school in Milton.

—Fall cream cheese at Gillies & Jones, 10c. per pound. Will be higher soon.

—Among the many prizes awarded by the Rock County Agricultural Society last week were: 1st on bread to Miss Edna Wright, aged 7 years; 1st on cake to her sister, Miss Edith Wright, aged 5 years. As there are some who doubt the ability of the two little girls, we take the liberty of stating that they may take either one of them home with them, furnish the material, and they will soon prove that the prizes were honestly won and merited.

—Mrs. Mary Jones and daughter Mattie are visiting in this place. Miss Mattie has for a long time occupied a position as clerk in the Chicago Store.

—The county fair was well attended by people from this neighborhood last week.

—B. Roy Cheney, who is attending school in Beloit, was home for a few days last week.

—Saturday evening of this week a meeting will be held in the school house at this place for the purpose of finding what support the farmers would give a butter and cheese factory if one would locate here. If enough milk can be obtained a factory is certain. Let all come out and express themselves and hear what is said by those who have tried it.

If you could see your own scalp through an ordinary magnifying glass, you would be amazed at the amount of dust, dandruff, and dead skin thereon accumulated. The best and most popular preparation for cleansing the scalp is Ayer's Hair Vigor.

With a feeble appetite and imperfect digestion, it is impossible for the body to secure the requisite amount of nourishment. Ayer's Sarsaparilla not only stimulates the desire for food, but aids the assimilative organs in the formation of good blood and sound tissue.

TOBACCO.

A FEW THINGS ABOUT ONE OF WISCONSIN'S BEST PAYING CROPS.

One of the largest dealers in leaf tobacco in this city was interviewed yesterday by a Gazette reporter with reference to the present crop of 1889, and the following are his estimates concerning it: A larger acreage was grown in Rock county this year than ever before. There is said to be over 2,000 acres more in the state this year, and Rock county has increased her acreage more in proportion than the other tobacco growing districts. The season has been very favorable both for setting, cultivating and harvesting; in fact, it has been earlier from the start and now over three-fourths of the present crop is in the shed in fine condition. This week will see it all or nearly all under cover. This weather is all that can be asked for curing tobacco. Tobacco is raised each year with less labor, and risks, and for a man with a farm it is a paying investment.

Very little of the old crop is in the hands of the producers. This, with the fact that great quantities of tobacco have been exported, insures the producer a fair price for the large crop this year.

Wisconsin tobacco is purely leaf, and ranks in the market next to Connecticut grown tobacco. Nearly all the tobacco now grown in Wisconsin is used for binders, as the light tissue like Sumatra leaf has completely supplanted it for wrappers, thereby lowering its price.

One who owns his land and has other crops besides, can afford to grow from three to seven acres, and sell his crop in the bundle for six or seven cents a pound, but where men pay their board and depend simply on their tobacco for a living, it has not, it is said, for a term of years yielded a very large revenue; yet there has grown up a class of men all over this tobacco growing district whose only business is to raise a crop of tobacco on shares, and many of them have come to own the very land they began to rent.

NOVELTIES IN JEWELRY.

Included in the variety of hairpin headings is a diamond and ruby edelweiss.

A novel idea in decorative tableware is a cut-glass bonbon dish shaped as a pear.

An attractive little trifle worth noticing is a match box formed wholly of heavy silver wire interwoven.

Chased gold crescents, adorned with enameled forget-me-nots, are another species of that favorite brooch pin.

Individual peppers are now on the market, fashioned as miniature cream pitchers, with closed and perforated tops.

The rage for fancy quarter clasps is again assuming extraordinary proportions. Mythological heads in relief are the latest craze.

White enamel daisies, with gold hearts strung on a slender gold wire, a diamond star occupying the center, is a bracelet of recent origin.

A brooch has been introduced that represents a horizontal bar of gold with opal ends, on which is seated an acrobat in a suit of varicolored enamel.

Across a white enameled imitation pad in a gold mount rests a tiny gold pencil, forming together an appropriate scarfpin for penny-a-liners.

Though so many silver toothpick stands have of late been introduced the newest creation in this direction, a miniature anvil, hollowed out, is the quaintest.

Hairpin tops, or rather the larger portion of them, are detachable, thus enabling their possessors to utilize them either for brooches or pendants.

Figuring among the newest creations in queen china pendants is a fac-simile in a gold harp. The entire frame it set closely with torquoises and pearls alternating.

A huge silver urn, etched with scenes of bacchanalian revelry and supported by four elephant heads, is a presentation loving cup displayed for the public edification.

An up-town retailer has exposed in his window a silver flash inlaid with red gold and green leaves. The work is so perfect as to create an impression that it is produced by closely woven gold wires.

A new device that is likely to make a name is a long silver vessel wherein are half a dozen spools of cotton. Each one is threaded through with a blue silk ribbon, fashioned at each end into a small bow. On these ribbons the spools revolve.

Something very unique in photo frames consists of polished mahogany posts holding between them a mother of pearl gate with a gold latch. "Please shut the gate," in raised gold letters above the doorway, gives additional effect to the design.

RELIGIOUS INTELLIGENCE.

Chan Chu Sing, a converted Chinaman, has been licensed as a local preacher in the Methodist Episcopal church.

There are thirty-five Chinese Sunday schools in New York and Brooklyn, and 135 Chinese Sunday schools and missions in the whole country, exclusive of California.

There are said to be nine anti-Christian papers published in the United States and Canada, with a combined circulation of 30,000. But a majority of them have a hard struggle to make both ends meet.

The Austrian archbishops are probably the most highly paid in the world. The cardinal archbishop of Vienna has only about £6,000 a year, but the cardinal archbishop of Olmutz has £40,000, the cardinal archbishop of Prague has £35,000, and the archbishop of Erlru has £60,000. And the primate of Hungary, the cardinal archbishop of Grau, has £80,000.

A novel method of raising funds has been tried by a Sunday school in Burlington, N. J. Some time ago 250 new 5-cent pieces, called "talents," were distributed among the scholars and teachers, with instructions to do whatever in reason they could to increase the sum. When the talents were all called in, notwithstanding all the scholars did not make returns, the sum received was $537.
